Workshop on

Insights on Writing Research Proposal
CENTURION UNIVERSITY, BBSR

Organized by
Center for Governance and Sustainable Societies

Date: **08-09-2020 to 11-09-2020**

Resource Person:

Dr. Smita Mishra Panda

No. of Participants: 20

Resource Person:

Dr. Smita Mishra Panda is educated in Delhi University and the Asian Institute of Technology (AIT), Bangkok. Prior to joining CUTM, she was Professor at the HDF School of Management, Bhubaneswar, Associate Professor at the Institute of Rural Management, Anand (IRMA) and Researcher at the United Nations Centre for Regional Development, Japan, and AIT, Bangkok.

About the Session

Writing a research proposal engages a number of skills such as Subject knowledge and research skills, Critical thinking skills, and communication skills. The FDP organized by CGSS highlighted how to write a good research proposal. A standard template with Background to the topic, significance and research problem, Research aims and questions, Review of literature, Study/project design, Timeline, Expected outcomes/impact was discussed followed by questions and answers.

Objective:

- To state the problem, hypothesis and the research steps needed for progress towards a solution.

Outcomes:

Successful proposals are likely to share two qualities: 1) an attractive, workable scientific idea framed as a testable hypothesis, and 2) a logical research plan that has been clearly and concisely communicated to a non-expert reader. We have already hinted at this last quality and it bears emphasis: mail reviewers and ad hoc panel members will be evaluating your proposal as a significant, additional burden on their already heavily committed time and energy
