Number of Participants: 64

Resource person

Mr. Amlan Barik

Venue: ForkLift Workshop, ASDC Block

About the workshop

Forklifts are large industrial trucks used to move materials efficiently and without damage. Operating this machine needs the right expertise and knowledge. Forklifts are widely needed across various industries to handle their operations effectively and quickly. Hence, it is important for companies to provide their forklift operators with the appropriate equipment and training.

The workshop demonstrates about the;

- Safety aspects while operating the equipment.
- Pre and Post operation checklist of the equipment.
- Practical Training on the equipment.
- Performance Evaluation of the operators.
- Preventive maintenance which is critical for efficiency.

The workshop demonstrated the safe operation of powered industrial trucks and in the performance of tasks such as the following:

- Handling.
- Maneuvering.
- Traveling.
- Stopping.
- Starting.
- Any other activities under the conditions that will be encountered in the use of the truck
