

Centurion university of Technology and Management

Workshop on

Digital Manufacturing using Delmia

Date: 15-11-2019 to 16-11-2019

Resource Person: Dassault systems

Mr. Pradeep

No. of Students and/or Faculty Participated: 79

DELMIA allows manufacturers to virtually experience their entire factory production from the impact of design to determining how to meet global demand. These simulation activities better address and shift processes so as to quickly respond to the competition, or to take advantage of new market opportunities.

Objective:

- To understand the 3D interactive environment that enables Manufacturing Engineers to optimize additive manufacturing techniques based on material deposition
- To design and simulation of products on digital platforms

Result:

Digital manufacturing enables manufacturers to eliminate bottlenecks, reduce inventory, improve quality, shorten time to market, pivot quickly to meet customer needs, and expand the number of products made.
