About Resource Person: Dr. Prasanta Kumar Choudhury is currently working as Assistant Professor and Head in the Department of Dairy Technology, Centurion University of Technology and Management, Odisha. He obtained his Ph. D degree from the National Dairy Research Institute, Karnal in the field of Dairy Microbiology. He has more than 7 years of experience in various capacities in different national and internationally funded research schemes. In addition to that, he has also published more than 25 research papers/reviews/book chapters in journals of national and international repute and more than 440 citations and an h-index of 9 to his credit. Most outstandingly for his contributions in anaerobic microbiology, he has received many awards for his presentations at various scientific forums. Recently he has received the Young Researcher Award from the Institute of Scholars Bangalore for his outstanding work on probiotic bacteria. Also, he is associated with the reviewer in the editorial board of Systems Microbiology and International Journal of Basic and Applied Sciences.

About the session: the session begins with the introduction by the resource person of why Dairying is an important source of subsidiary income to small/marginal farmers and agricultural laborers. In addition to milk, the manure from animals provides a good source of organic matter for improving soil fertility and crop yields. The gobar gas from the dung is used as fuel for domestic purposes as also for running engines for drawing water from wells. The surplus fodder and agricultural byproducts are gainfully utilized for feeding the animals. Almost all draught power for farm operations and transportation is supplied by bullocks. Since agriculture is mostly seasonal, there is a possibility of finding employment throughout the year for many persons through dairy farming. Thus, dairy also provides employment throughout the year. The main beneficiaries of dairy programmes are small/marginal farmers and landless laborers.

Objective

- To meet the basic and overall practical knowledge requirement of the students of various professions in the field of dairy farming for higher profitability - specific/key points of dairy farm management.
- Seeing and doing is the key to the success of an entrepreneur in the field of dairy farming.
