

## WORKSHOP ON

### **Role of Social Science and Agricultural Extension for rural development**

**Resource person: Mr. G M Patanaik**

**Date: 18-08-2018**

Number of Participants: 19

#### **About the Resource Person**

Mr Patnaik has about 35 years of experience in the area of Human Resource Management / Human Resource Development including training in industry and educational institutions. Presently, he is associated with the Centurion University, Bhubaneswar as a Trainer / Advisor /Consultant. As a free-lancer, he is also associated with other NGOs / Development Organisations in Odisha as a Corporate Trainer and Management Consultant. Prior to this, he worked as Deputy General Manager (Corporate HR) at National Dairy Development Board (NDDB), (a Govt. of India statutory, autonomous and corporate organisation and part of AMUL group of institutions) for about 24 years (1983 to 2007) which includes Institute of Rural Management Anand (IRMA), Rajasthan Cooperative Dairy Federation (RCDF), Jaipur. Post-NDDB, he also worked as Head (HR) at KIIT University, Bhubaneswar for about three years. Since 2010-11, he is associated with the Centre for Environment And Development (CED), Thiruvananthapuram / Bhubaneswar as a Trainer for Capacity Building Programmes under various flagship programmes of Govt of India (like, Smart City Mission, Swachh Bharat Mission, National Urban Livelihood Mission etc), being implemented by Govt of Odisha through 112 Urban Local Bodies (ULBs) of Odisha for Urban Development / Urban Management / Urban Governance.

#### **About the program**

Agricultural extension (also known as agricultural advisory services) plays a crucial role in boosting agricultural productivity, increasing food security, improving rural livelihoods, and promoting agriculture as an engine of pro-poor economic growth.

#### **Objective**

- To encourage the farmers to grow his own food, eat well and live well.
- To promote better social, natural, recreational, intellectual and spiritual life among the people

#### **Programme outcomes**

- Farmers grow his own food, eat well and live well.

- Promoted social, natural, recreational, intellectual and spiritual life among the people
