**About programme:**

Management information system (MIS) refers to a large infrastructure used by a business or corporation, whereas information technology (IT) is one component of that infrastructure that is used for collecting and transmitting data.

**The objective of the programme:**

Management information system (MIS) technology targets that contribute to business goals.

**The outcome of the FDP:**

The management information system helps a business/enterprise make decisions and coordinate and analyze information. The knowledge of Information Technology supports and facilitates the employment of that system. Participants got hands-on of various MIS tools and their operations.
