

Workshop on Appearance Platform

Date: 16th September, 2020

Resource person: Mr. Vivek Aiyer

No. of Participants: 19

This Instructional Workshop on Appearance Platform was conducted on 16th September, 2020. The workshop displayed some of the best features of different online platforms for management. The proposed application provides a dashboard interface to the user to upload models and content subjected to different file formats (Media, game engine asset bundles, 3d models) which can be then called back from the SDK tool of specific application to Unity Engine or supported Game engines.

- Real time api call from web module to build application
- Pre Integrated AR/VR Sdk
- Web deployment online customization panel
- 3d web tool

Learning Experience

- The proposed system promises an immersive learning experience
- LMS integration support
- Response and data collection capacity
- Audio visual learning
- Interactive and self-content learning option

Outcomes:

- Students can use the platform to create content and publish
- Create content for more complex to understand concepts
- Content and related IP will belong to us

The application is also said to be capable of performing multiple tasks which will be demonstrated in the upcoming workshop.

- Multiplayer Learning (Many users can collaborate on a single model)
- Accessibility tools
- Web VR deployment (simulation/ models)
- Accessibility to students in remote areas offline and online.
