## **Workshop on Life Skill Development 28 March 2019**

A workshop on Life Skill Development had been organized on 28<sup>th</sup> March, 2019 by the department of English, School of Management for the students of Centurion University of Technology and Management to train them on the importance and values concerning life skills. The event marked the presence of 190 participants from different disciplines.

It has been realized that a student or even a professional can come across aptitude and reasoning tests at some point which may include many areas of assessment such as verbal reasoning, numerical reasoning, abstract reasoning and other such abilities. These tests have become quite common these days especially for students who are confused and undecided about their careers.

### **Focus of the workshop:**

The workshop was need based and emphasized in inculcating the following attributes among the participants:

#### **1. Perfect Choice when Students are unsure of their future**

Aptitude tests are perfect for students or even professionals who aren't sure or confused about their future or present career choices. These generate ideas and career options after analyzing the skills and interests and determining a job that is best suited. Sometimes, these tests also generate job ideas that they hadn't even considered before.

#### **2. Better Knowledge of strengths and weaknesses**

Aptitude tests give students a better understanding of themselves. They are designed to reveal students strengths and weaknesses and give a better understanding of their personality. This is important for professional development. It may also highlight student's hidden talents.

#### **3. Educational and career advice**

Once students have a better understanding of their strengths and weaknesses, it becomes easy for them to find out what career or job is best suited for them. This

helps the students to know where they stand in the job market and also provides a platform to develop their skills with a variety of job opportunities.

#### **4. Difference between interest and aptitude**

Many students regret choosing a career based on their interest. It is important to know that there is a difference between interest and aptitude. Just because they are interested in a particular field does not necessarily mean that they have the required aptitude or potential for the same. Hence, it is important to select a career that incorporates both their interest as well as their aptitude so that they can achieve success and grow.

#### **5. Increase the chances of success**

Once students are aware of their interest and potential, they can easily make an informed decision. They can acquire the necessary skills for their job and develop them by appropriate training. This will, in turn, increase their chances of success at the chosen career or job.

#### **Way Forward:**

Once the students figure out the best-suited career and develop the skills, it becomes easy to predict the potential for success. Such students become successful in future and aptitude tests serve as the ideal parameters to judge the ability of such students whether it is for promotion or entry into new jobs.

Motivating students to talk about their talents on 28<sup>th</sup> March, 2019
