A Report on 'Self-efficacy to Self-branding'

A webinar on „**Self-efficacy to Self-branding**’ was organized on 9th April 2022. One hundred thirty-eight students participated in the programme. Dr Swayam Prabha Satpathy was the resource person for the webinar. 138 students attended.

Brief profile of the resource person:

Dr Swayam Prabha Satpathy is an academician, author, columnist, counsellor, editor and corporate trainer. Presently she is working as an Associate Professor in Siksha O Anusandhan University, ITER in the department of Humanities. She has received various prestigious awards as Siksha Ratan Puraskar, Teachers Excellence Award and Best Teacher Award. She is an editor of journals and a reviewer for various national and international journals. She has published and presented papers in various national and international conferences and forums. Her research interest are literature Language and ELT.

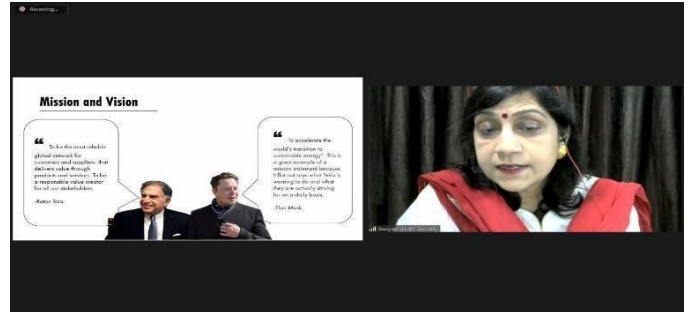

Dr. Swayamprabha highlighted in the beginning how with economic liberalization and globalisation, the Indian market is becoming more aggressive and competitive and to fit in the global standards, the youth and students need to recognise their true potential through development of soft skills and show off their talent at various national and international forums. Realizing the gravity of communication issues, many educational institutes are now taking up several activities on priority basis for developing soft skills of their students to make them corporate ready. The quality of graduates that enter the workforce is not equipped to meet the ever-changing demands of the competitive market. In the present Industrial Revolution 4.0 when the demand is on features like Artificial Intelligence, Cloud Computing, Supply Chain Management, the graduates are ready to efficiently work with these paradigm shifts, so there is a need for self-efficacy.

The webinar covered self-efficacy theory of Motivation, steps on the ladder from „I can’t do it“ to „I will do it“, how to define what you stand for, what it takes to be a responsible value creator for all our stakeholders, what you want to do and how it is important to strive on a daily basis to achieve the target by quoting Ratan Tata & Elon Musk. There was a discussion on the growth mindset tips like defined purpose, missing links, introspect & retrospect, learn to unlearn & relearn and developing resilience. The session concluded with a question and answer round

followed by a vote of thanks to participants, resource person and programme coordinator, Dr.Prajna Pani by Rajit Sarkar, student coordinator for the programme.

The Speaker Explaining the Self-Efficacy Theory of Motivation.
