Use of IT in Teaching & Learning

Date: 20-02-2019

Venue: CRC 1, Seminar Hall, CUTM, Paralakhemundi

Resource Person: Prof. Anurag

No. Of Participants: 25

In this era of Globalization, Indian education is passing through an important phase where educators are learning various techniques & theories for effective teaching and research. Also, the current pandemic scenario worldwide with its limitations to interact and meet people in physical space has forced many industries to change their delivery patterns and adopt innovation to survive. Hence, adopting disruptive innovation becomes a key to successful teaching and learning too.

Academicians around the world have been tasked with changing their traditional face to face classroom teaching to remote teaching and at the same time dealing with the creative research methods with many alternatives available to find out the real gap in the market and to keep themselves updated. This Faculty Development Programme provides an opportunity for participants/academicians to refine and re-tune their approach and skills of teaching/research in today's digital era and aims to provide:

- Innovative tools, techniques, and research methods for business management teaching in the digital era.
- To equip academicians towards understanding the recent advancements in technology along with its application to management education.
- To get a deep understanding of modern teaching & learning tools
