About the resource person:

Dr. R. C. Mohanty, now working as a Professor in the department of Mechanical Engineering, School of Engineering and Technology, Bhubaneswar Campus, Centurion University of Technology and Management, Odisha, India. Completed his bachelor degree from Institution of Engineers (India), M. Tech. from BPUT, Odisha and Ph.D. in mechanical engineering from National Institute of Technology, Rourkela, Odisha. Major research area is on Renewable energy, structural dynamics, vibration control and damping improvement of jointed and sandwiched beams. The other research area of interest is on production of bio-fuel

and bio-gas. He has published 90 international journal papers, 12 international/national conference papers.

Objectives:

A script file is an m-file that contains a sequence of instructions but is not a function. Unlike a function, a script file shares its workspace with the current directory. A script file is created by writing lines of code just as you would at the command prompt.

Outcomes:

When a script completes execution, its output appears in the following places: Messages detailing the success or failure of each operation are sent to the Messages tab in the script window. The time it takes to execute the script is also shown in the Messages tab.

The image is a workshop poster for Centurion University. At the top left is the university's logo, and at the top right is a stylized graphic of a bird or wing. The main title is 'WORKSHOP ON' followed by 'MATLAB Programming using Script file' in a blue box. Below this is the date 'DATE:21.01.2020'. The resource person is 'Dr. R. C. Mohanty', Professor, School of Engineering and Technology, Department: Mechanical Engineering. The workshop is organized by Centurion University of Technology And Management. At the bottom is a dark blue banner with the university's name and tagline: 'centurion university of technology and management' and 'Shaping Lives... Engineering Commitment...'.
