14	Other qualifications including the specialist Doctor of Medicine (DM) and Master of Surgery/Chirurgie (MCh)	Assessed on a case-by-case basis	F

Assessment notes

- A. If a Master Degree is awarded in the same field, the 1-year postgraduate Bachelor Degree and the 1-year Master Degree are assessed together by guideline 8.
- B. Note that some Post Graduate Diploma programs have a high percentage of practical subjects.
- C. This guideline also applies to Master Degrees in education, physical education and library science where a 3-year Bachelor Degree is followed by a 1-year postgraduate Bachelor Degree and a 1-year Master Degree.
- D. This is not normally designated as a postgraduate award.
- E. We have seen very few qualifications of this type. If both a Bachelor Degree and a Master Degree are awarded, both qualifications are likely to be assessed at face value.
- F. Specialist Doctor of Medicine (DM) and Master of Surgery/Chirurgie (MCh) are now usually higher awards, requiring 2-3 years of study following a Doctor of Medicine (MD) or Master of Surgery (MS), or 5 years following the Bachelor of Medicine and Bachelor of Surgery (MBBS).
