# THE CONTEXT

Centurion University conducts research in the area of “Responsible Consumption and Production” through its various schools and research centres. Faculty and students are engaged in and publish many research articles striving towards the standalone topic and others which are cross disciplinary. the University's production units, industry sponsored action learning laboratories and community engagement provide an excellent basis for research in this area.

In the year 2020, there were 89 research papers published in journals of national and international repute which increased by 7 and 4 in the year 2021 and 2022. The following section serves as a link to last three-year research endeavour in SDG 12.
