SDG 11

REPORT 2021

THE CONTEXT

Centurion University conducts research in the area of “Sustainable Cities and Communities” through its various schools and research centres. Faculty and students are engaged in and publish many research articles striving towards the standalone topic and others which are cross disciplinary. the University's production units, industry sponsored action learning laboratories and community engagement provide an excellent basis for research in this area.

In the year 2020, there were 60 research papers published in journals of national and international repute. The year 2020 and 2021 witnessed 27 and 14 research papers respectively. The following section serves as a link to last three-year research endeavour in SDG 11.
