

Students' Satisfaction Survey

Centurion University of Technology and Management

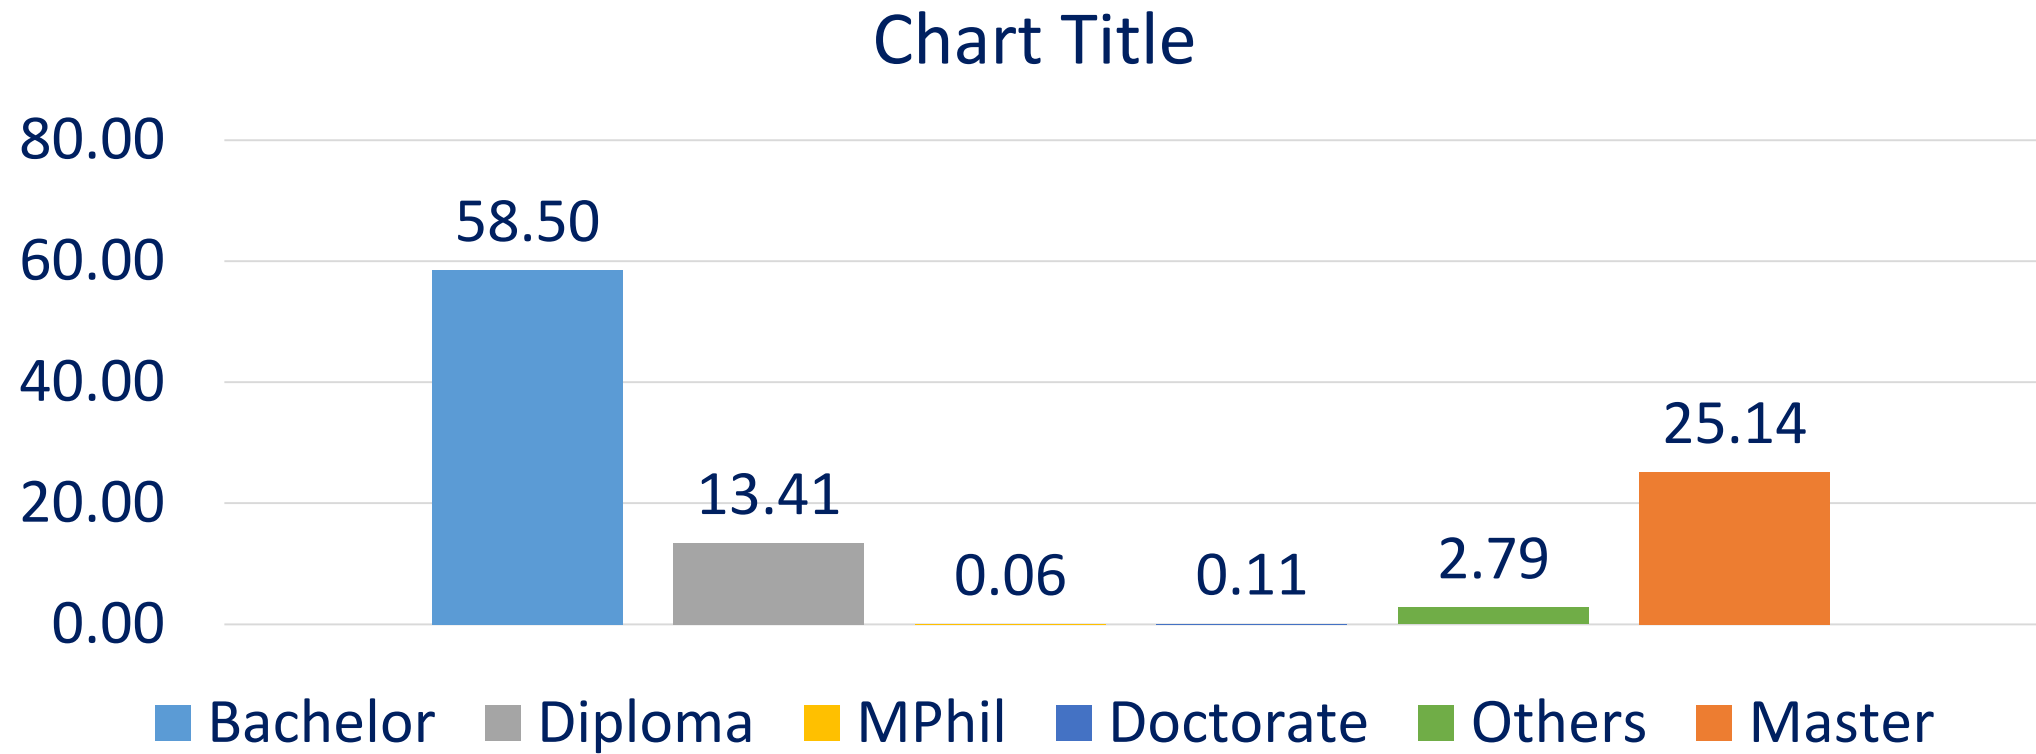

Please confirm this is the first and only time you answer this survey

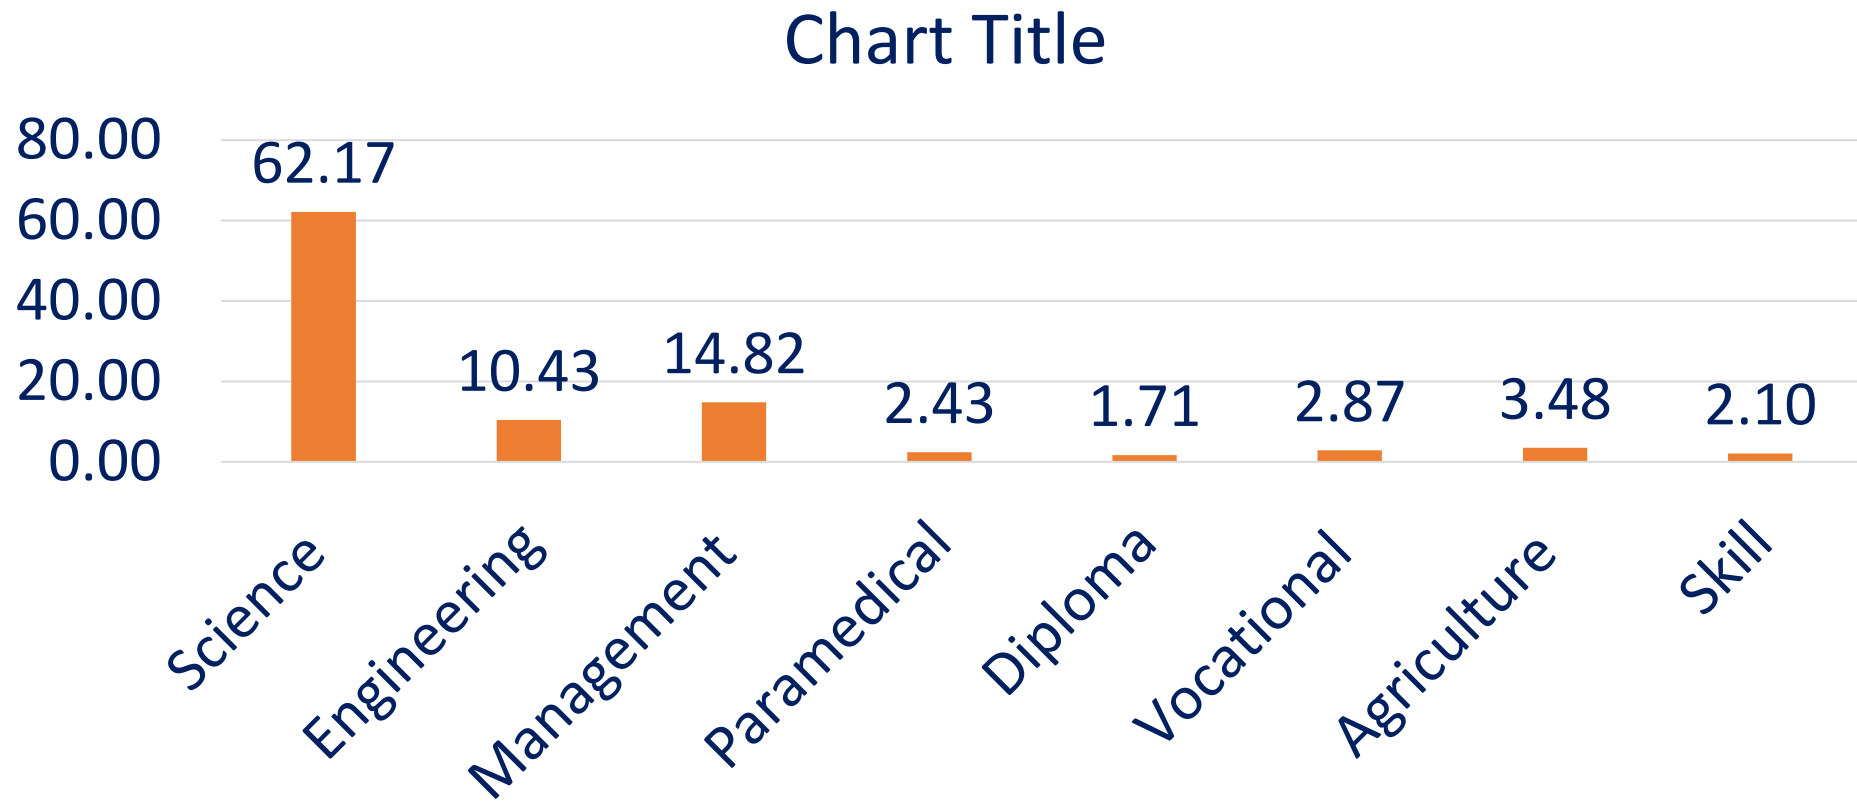

Gender

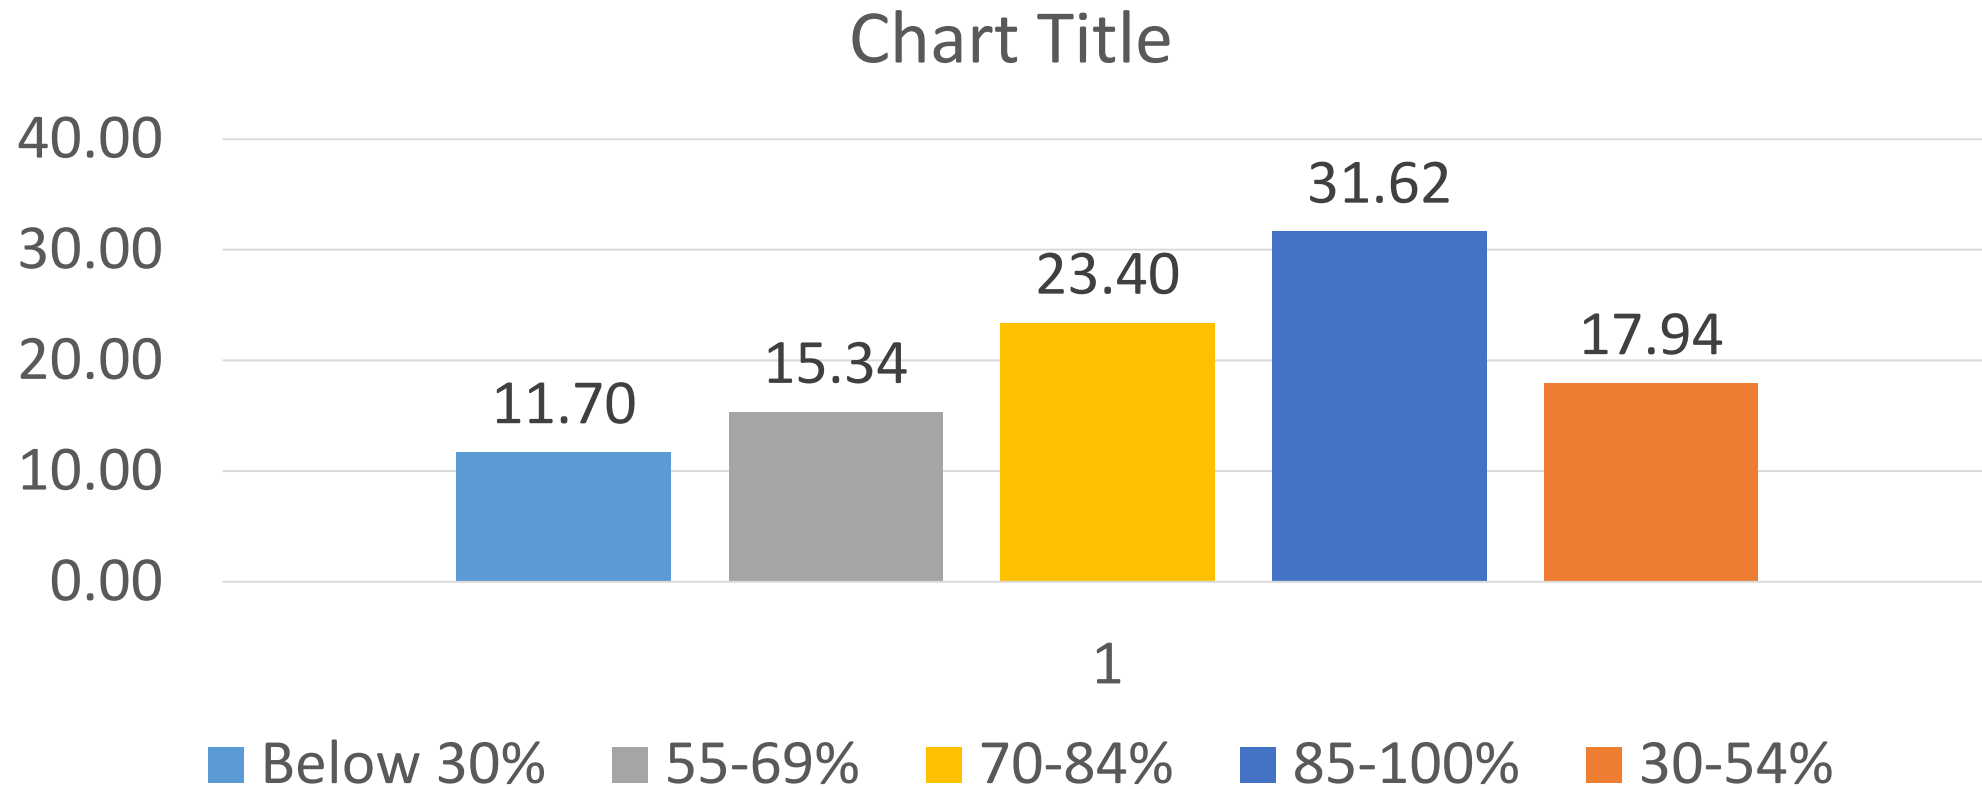

What degree program are you pursuing now?

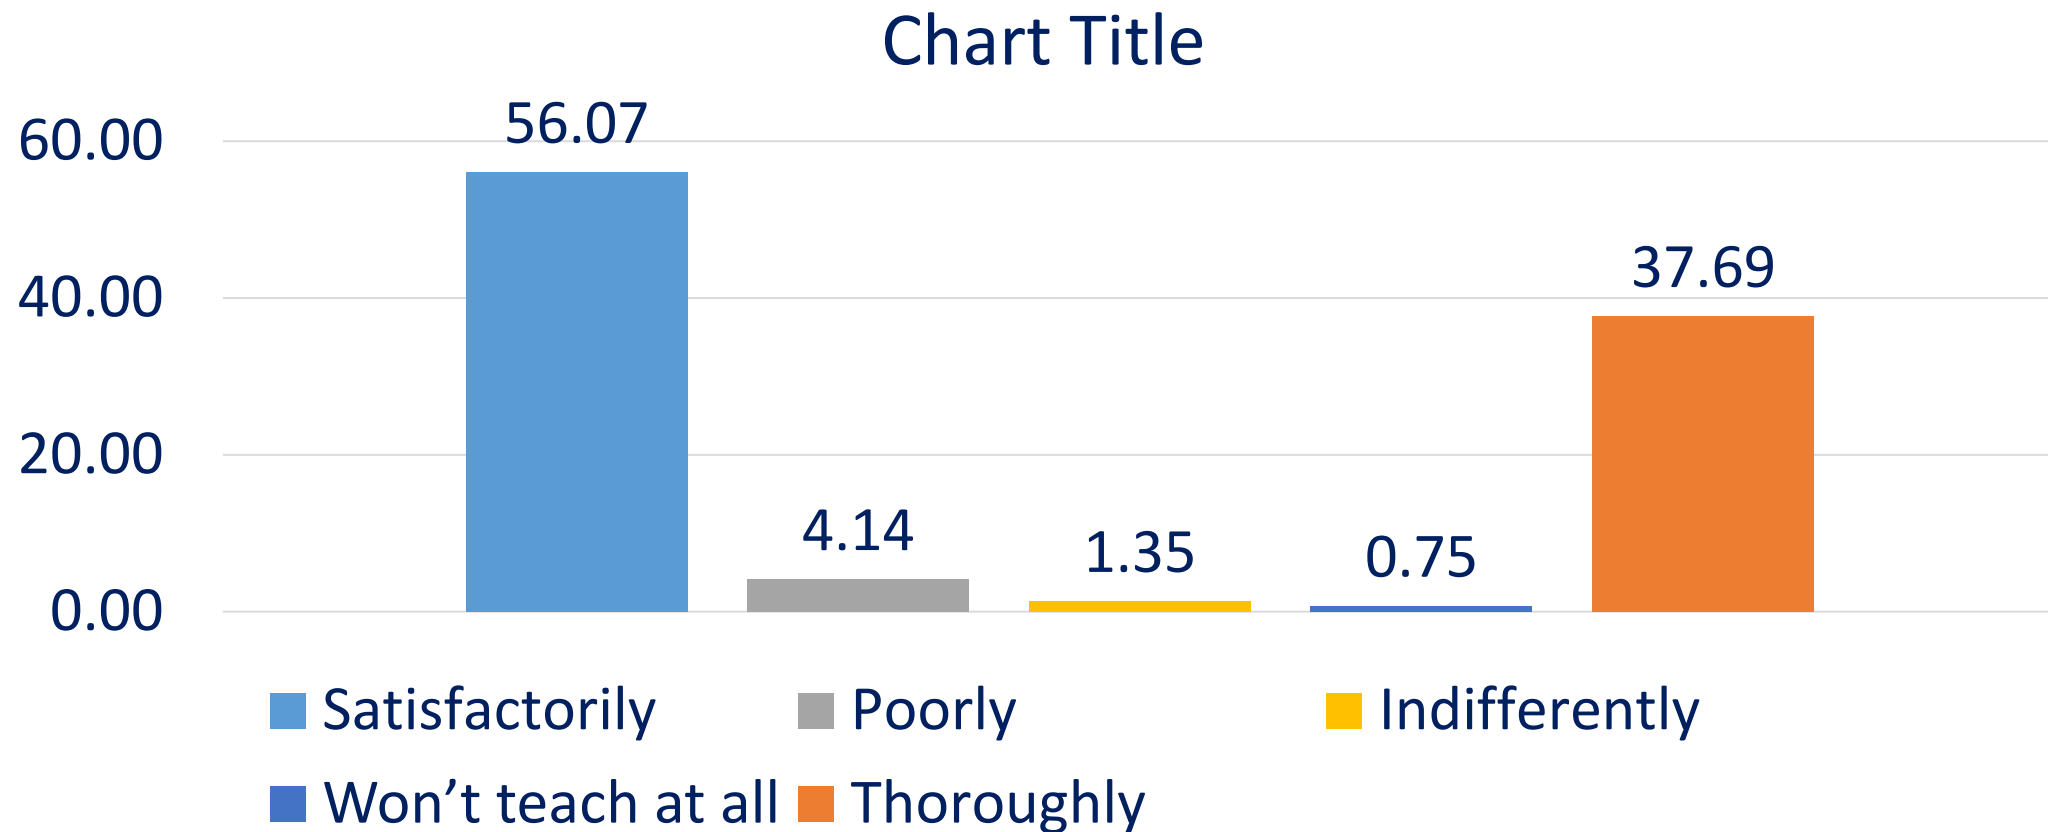

What Subject area are you currently pursuing?

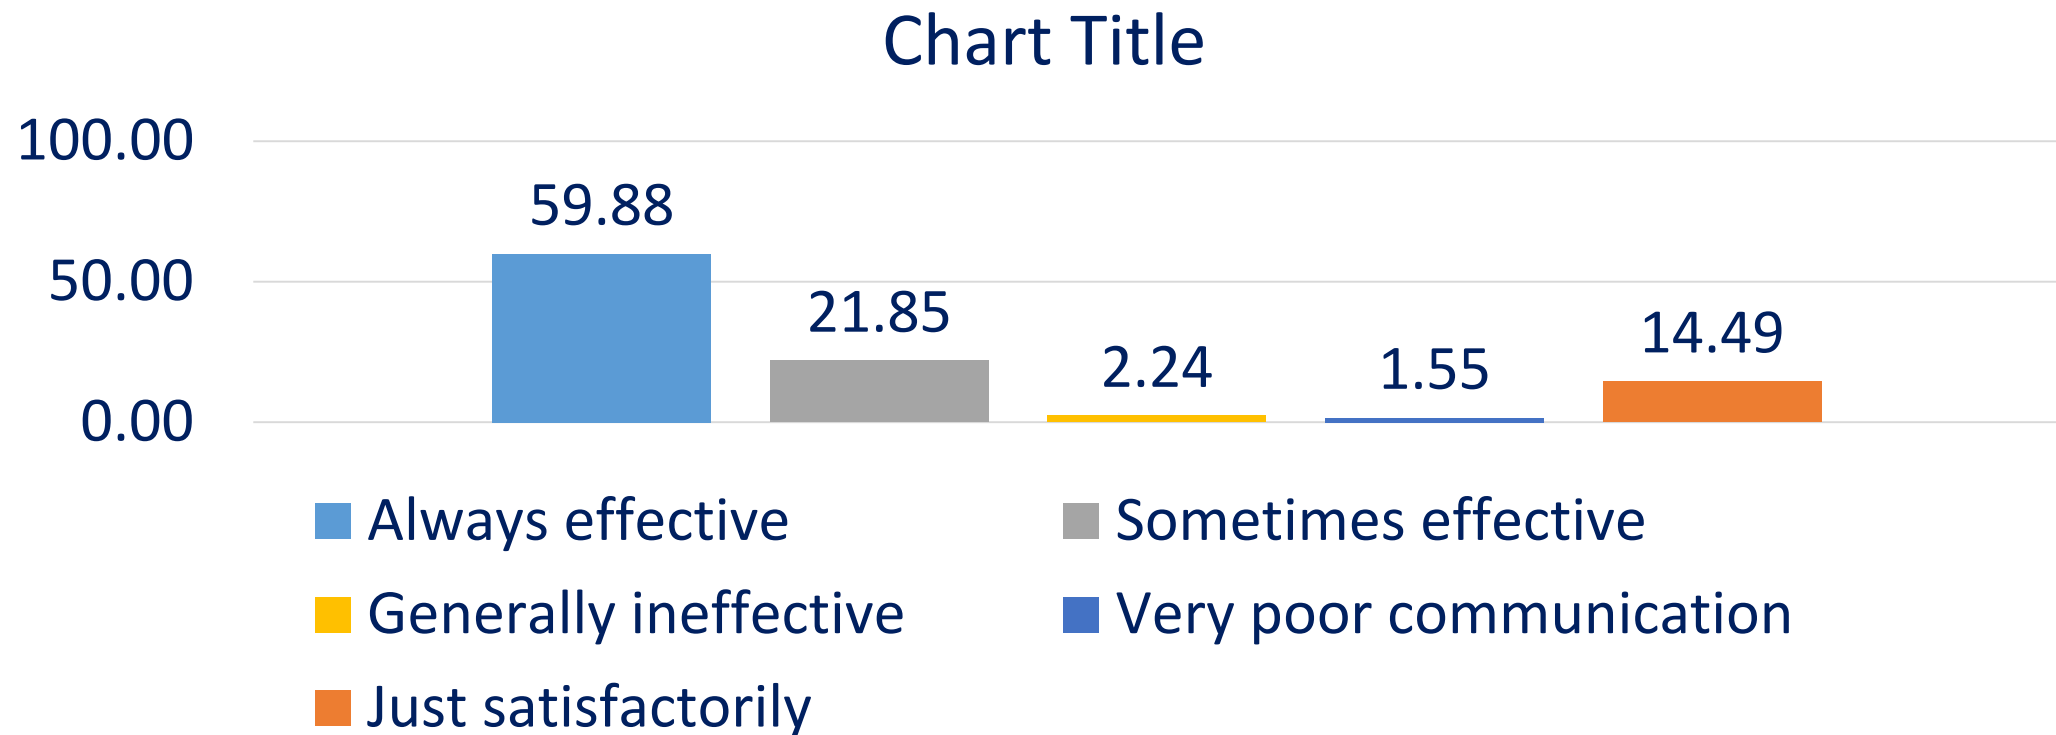

How much of the syllabus was covered in the class?

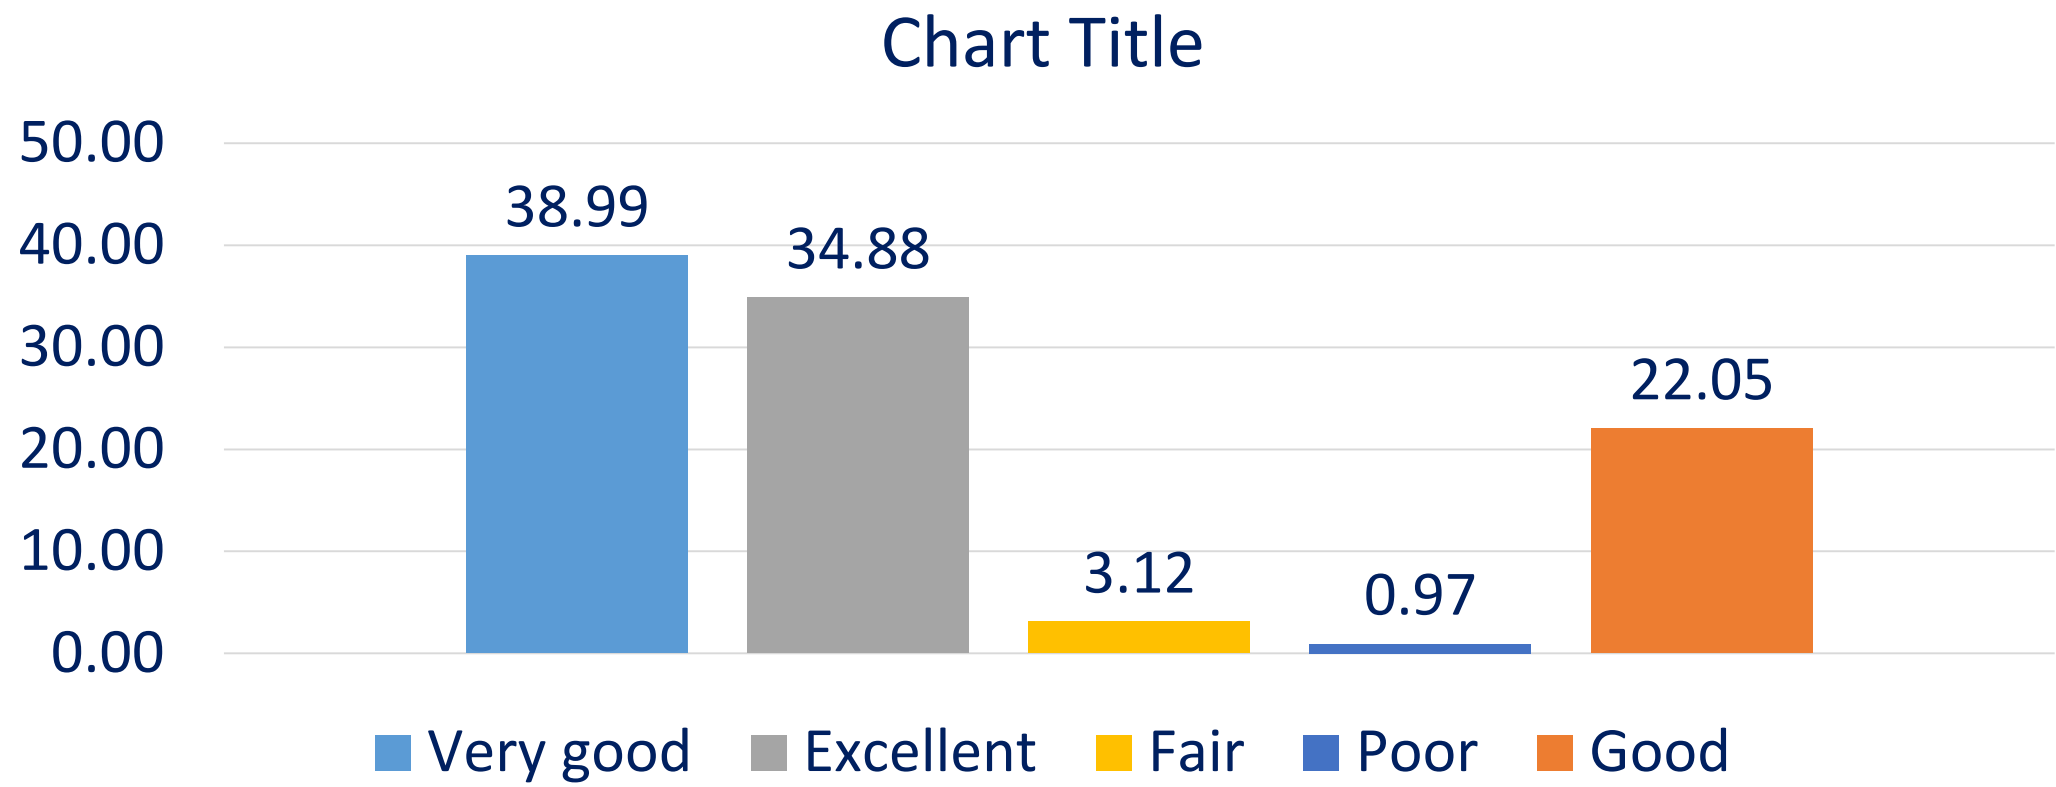

How well did the teachers prepare for the classes?

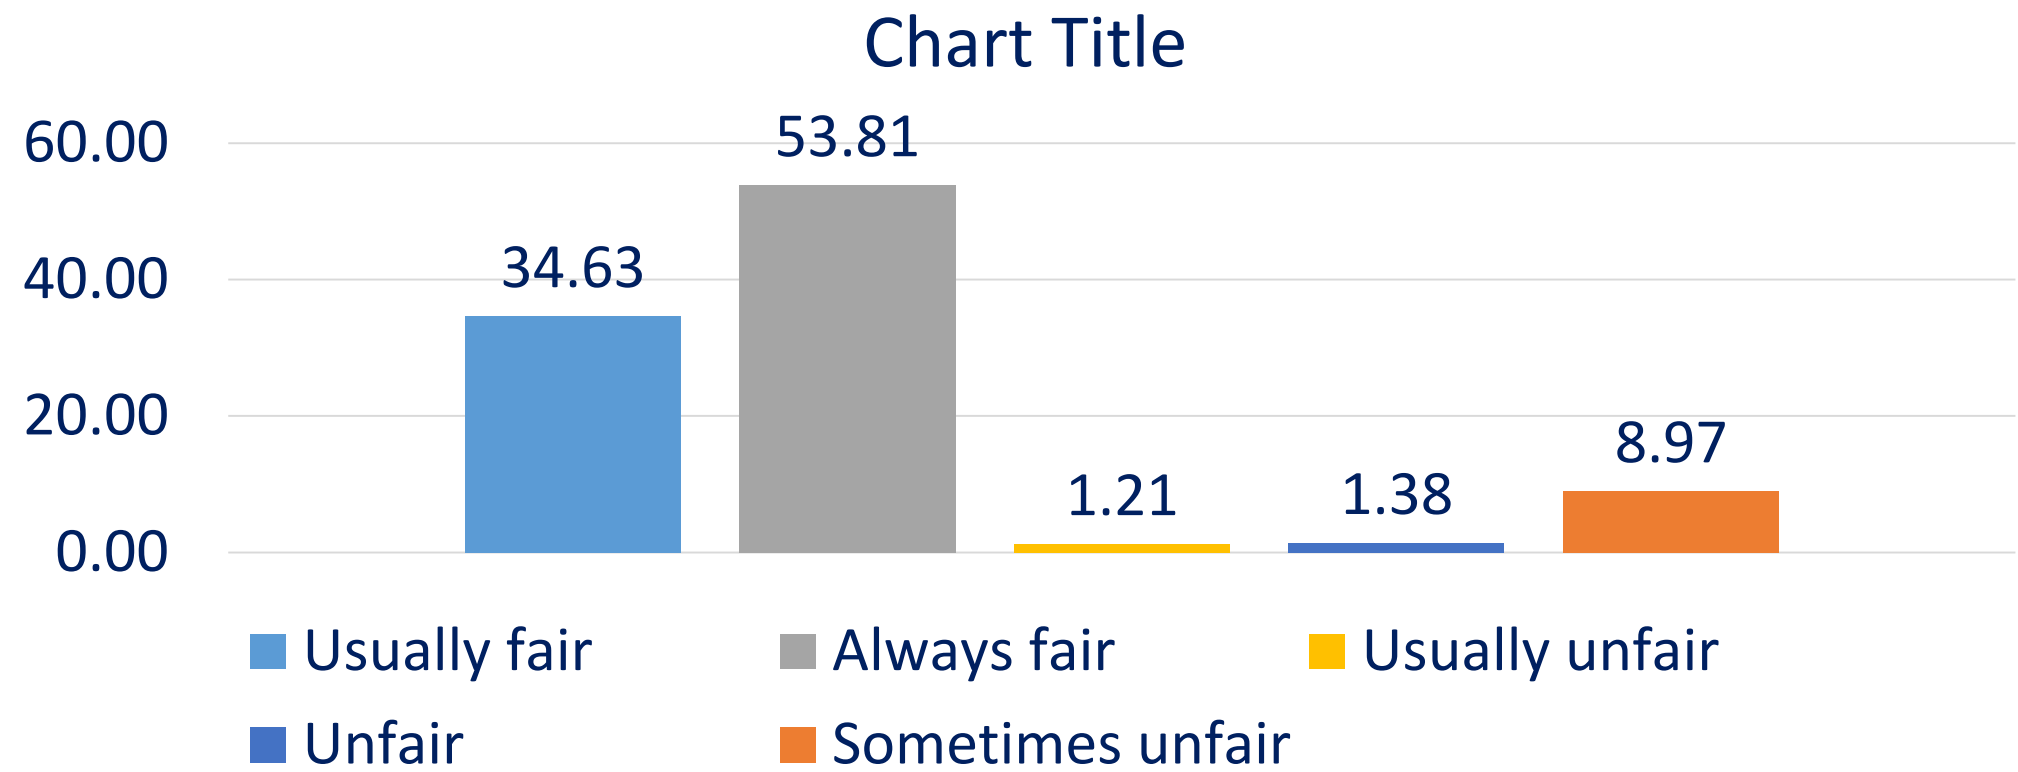

How well were the teachers able to communicate?

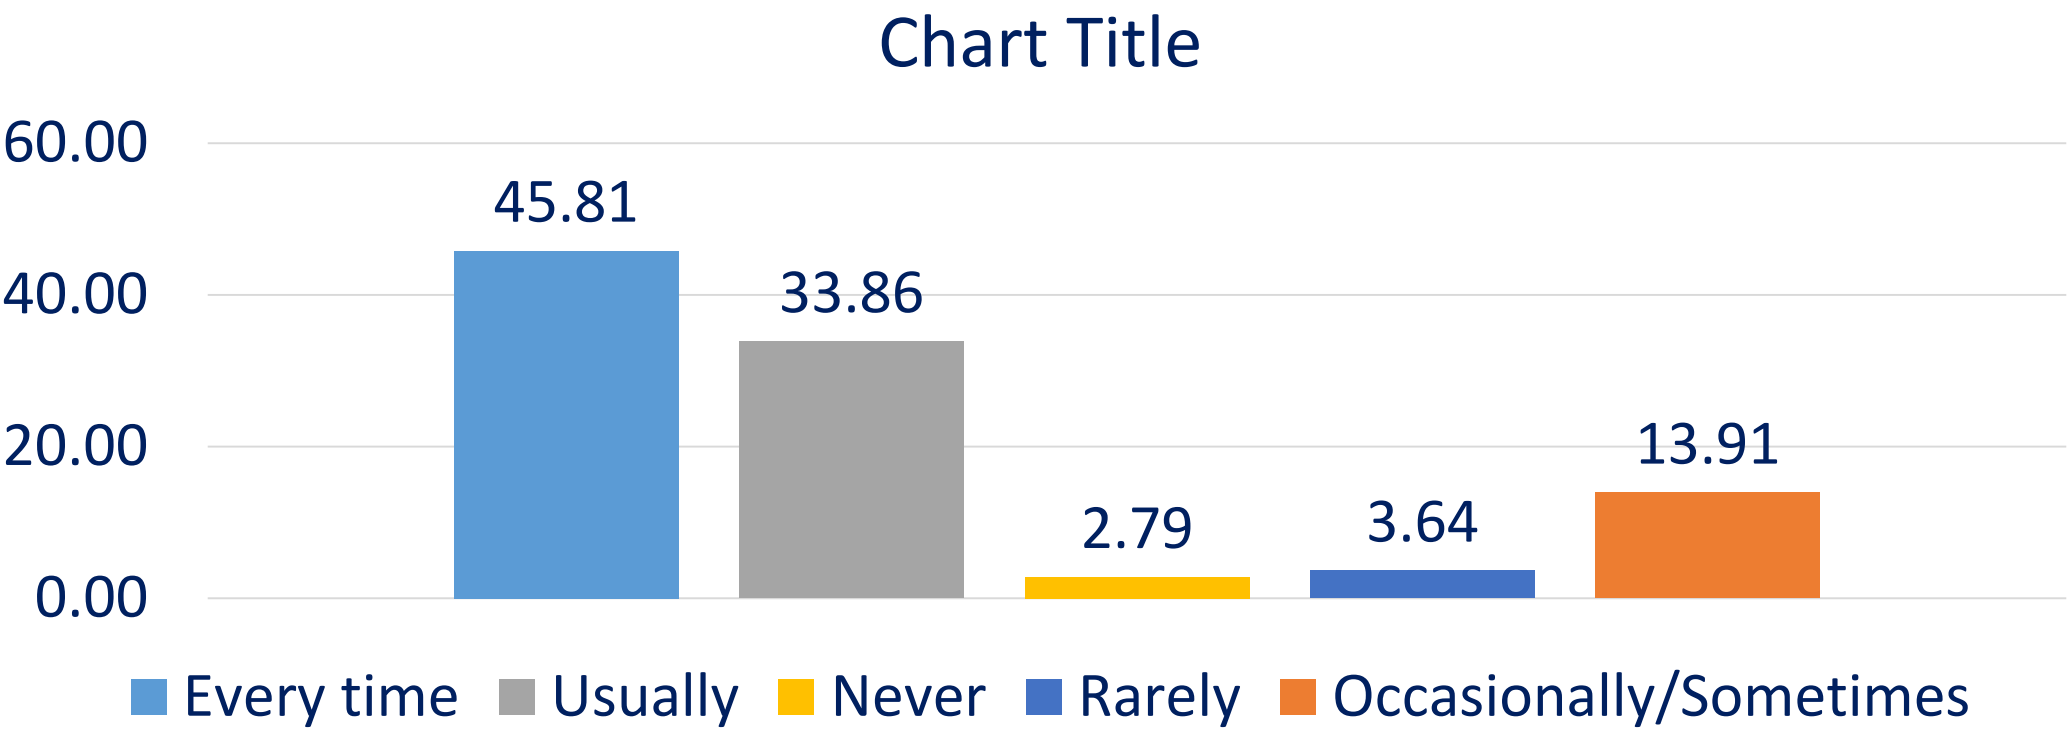

The teacher’s approach to teaching can best be described as

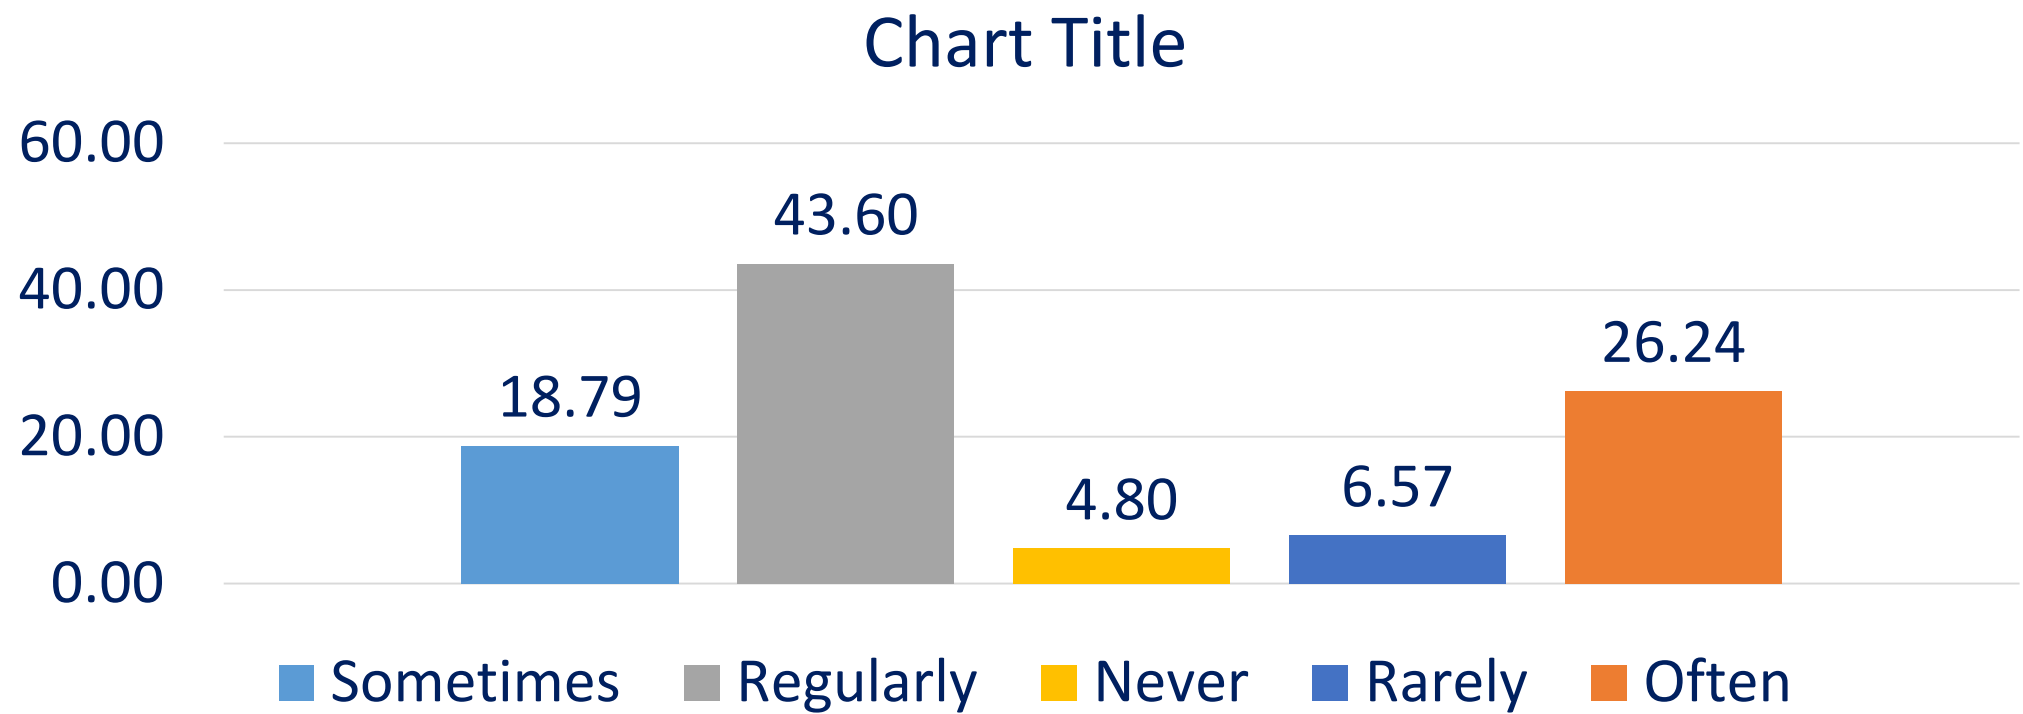

Fairness of the internal evaluation process by the teachers

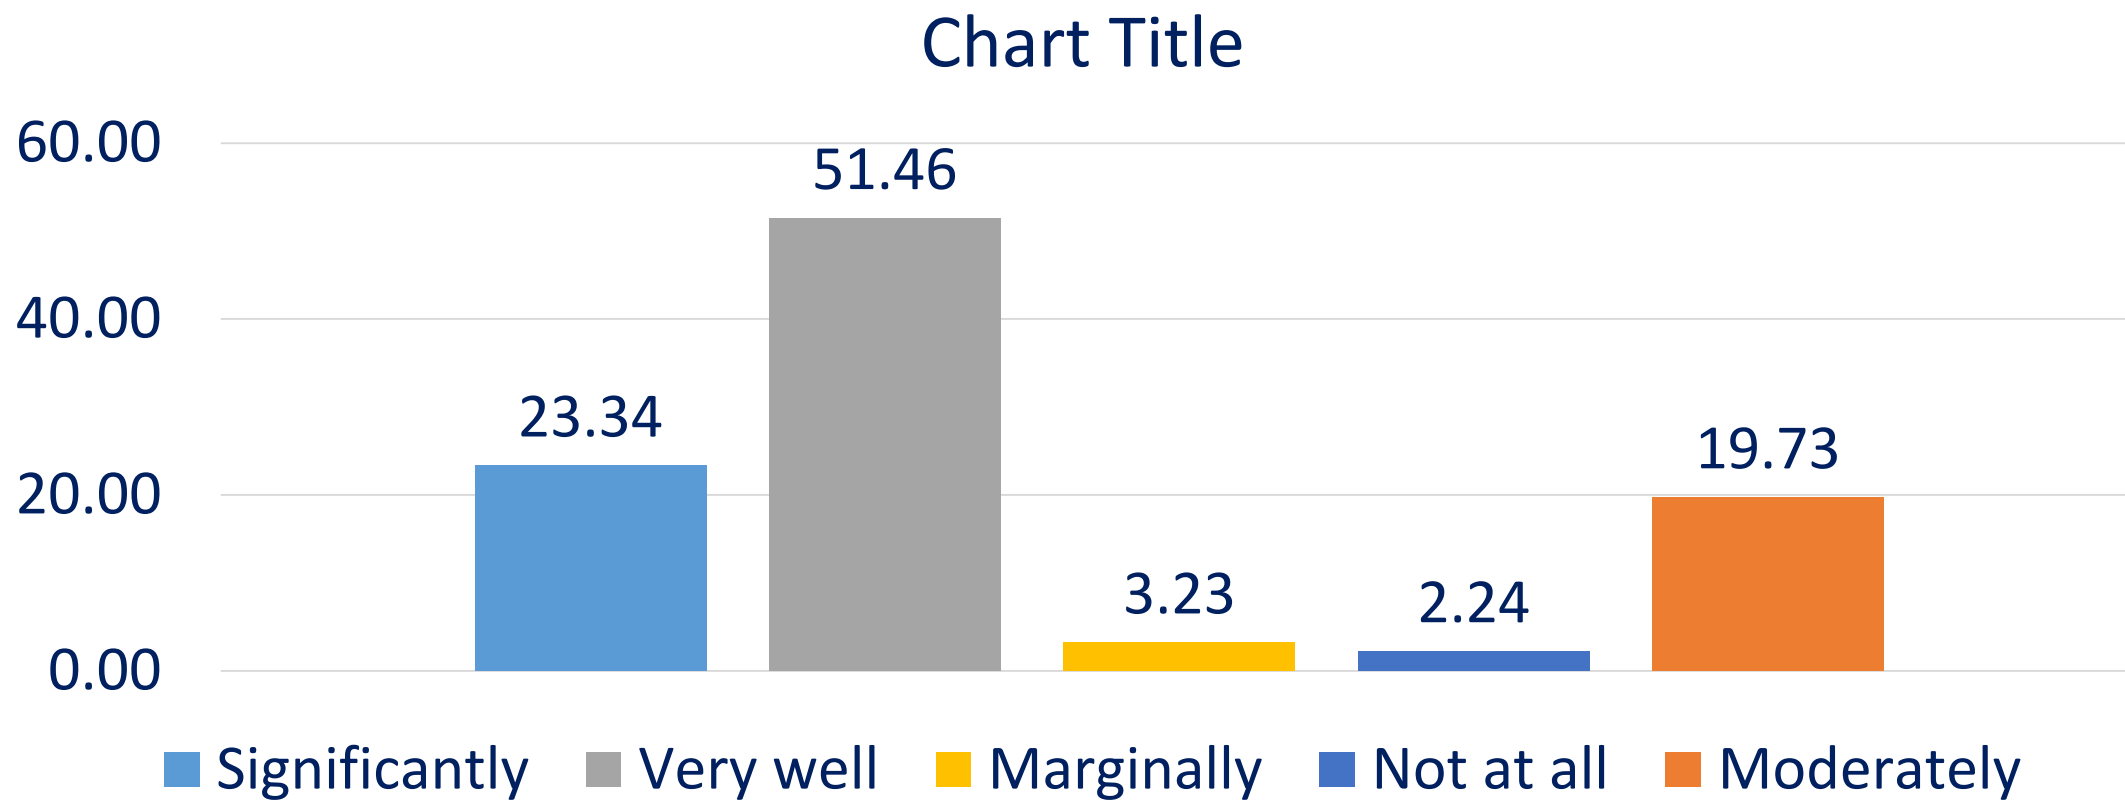

Was your performance in assignments discussed with you?

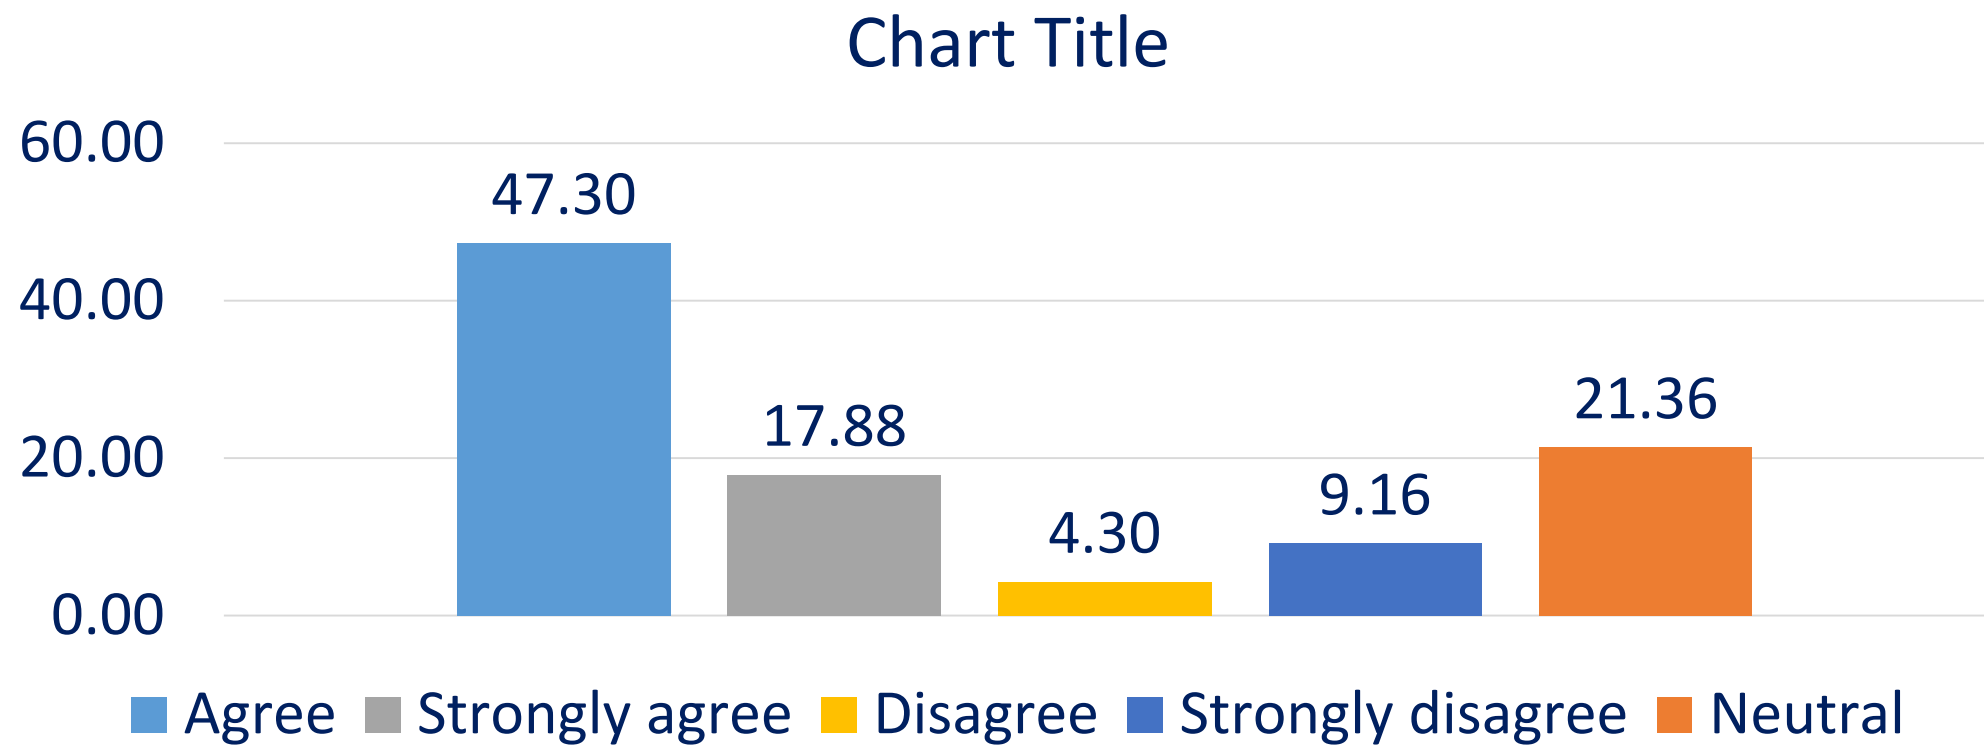

The institute takes active interest in promoting internship, student exchange, field visit opportunities for students

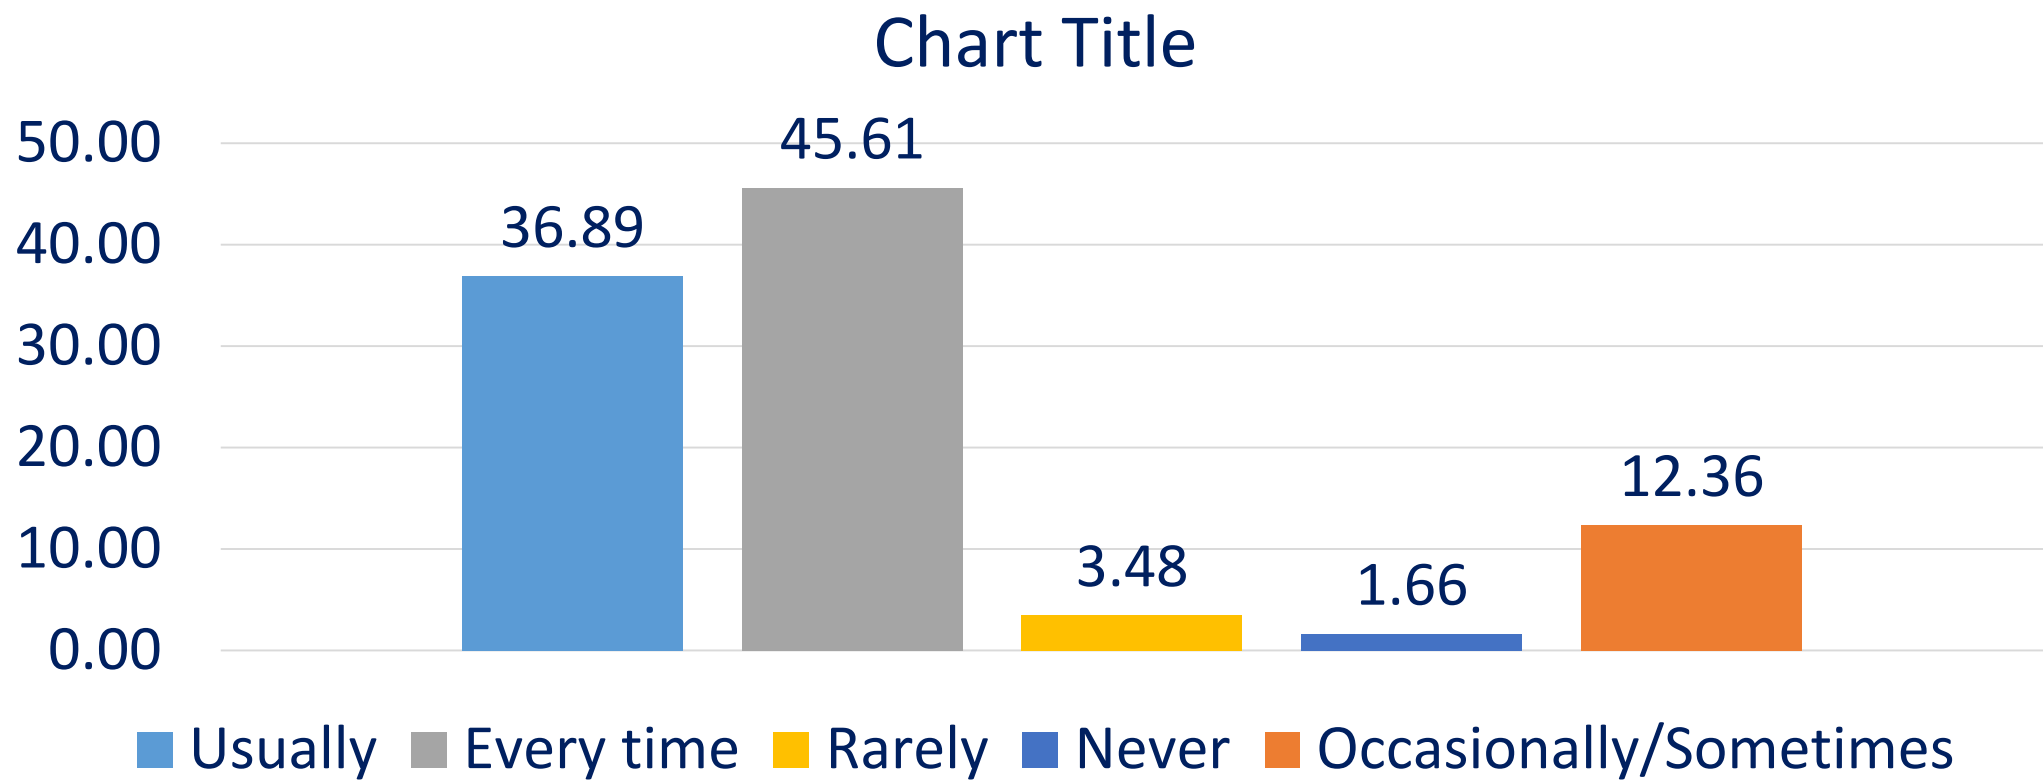

The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth

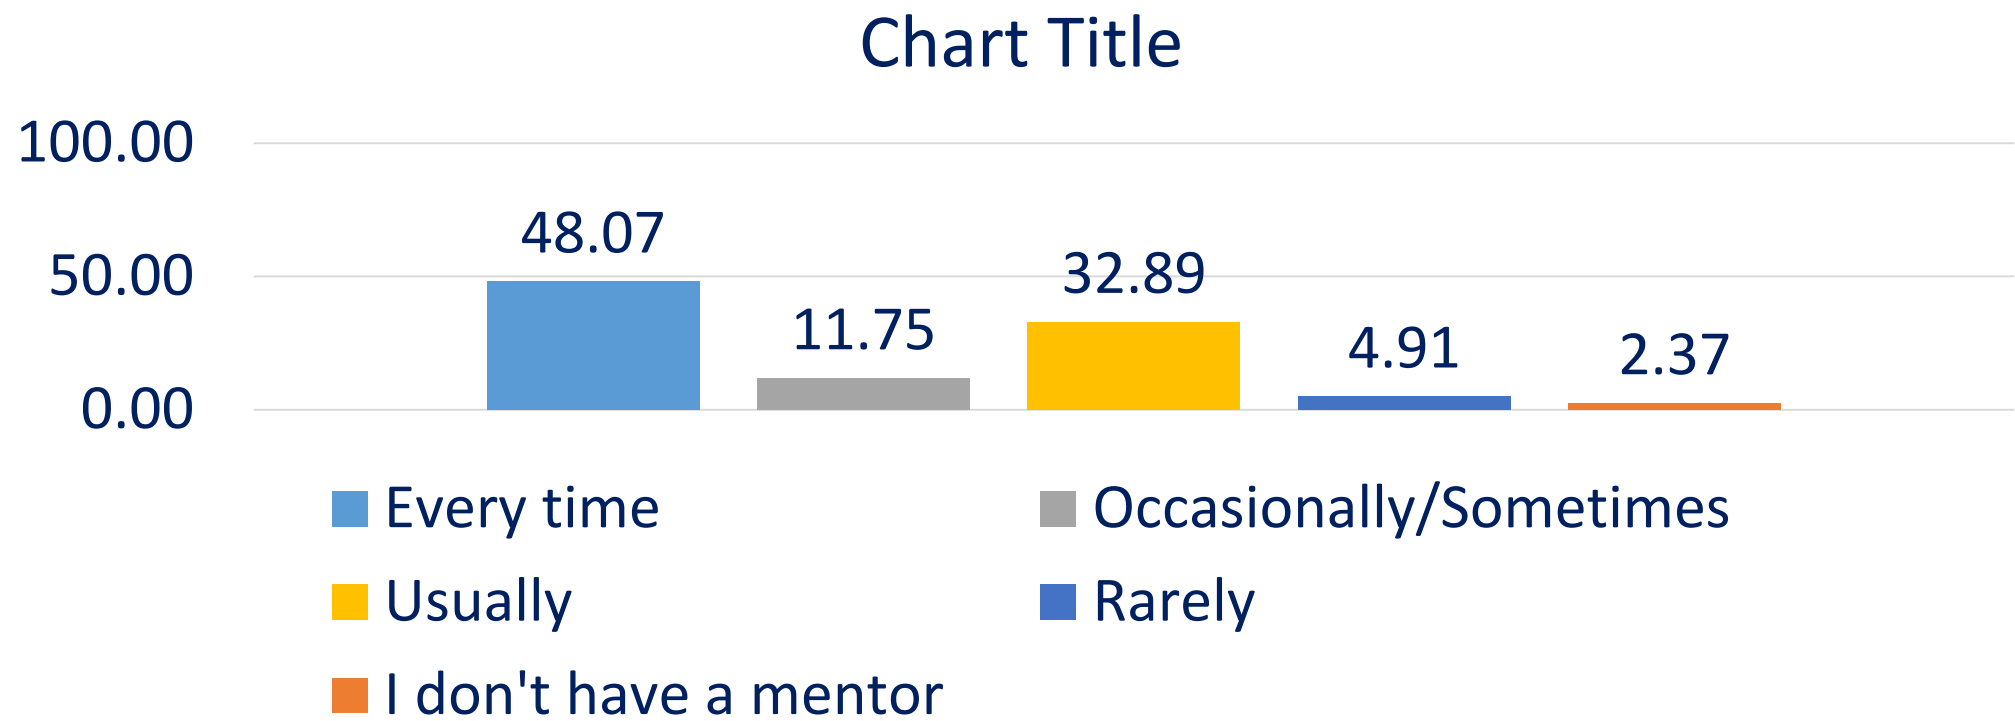

The institution provides multiple opportunities to learn and grow

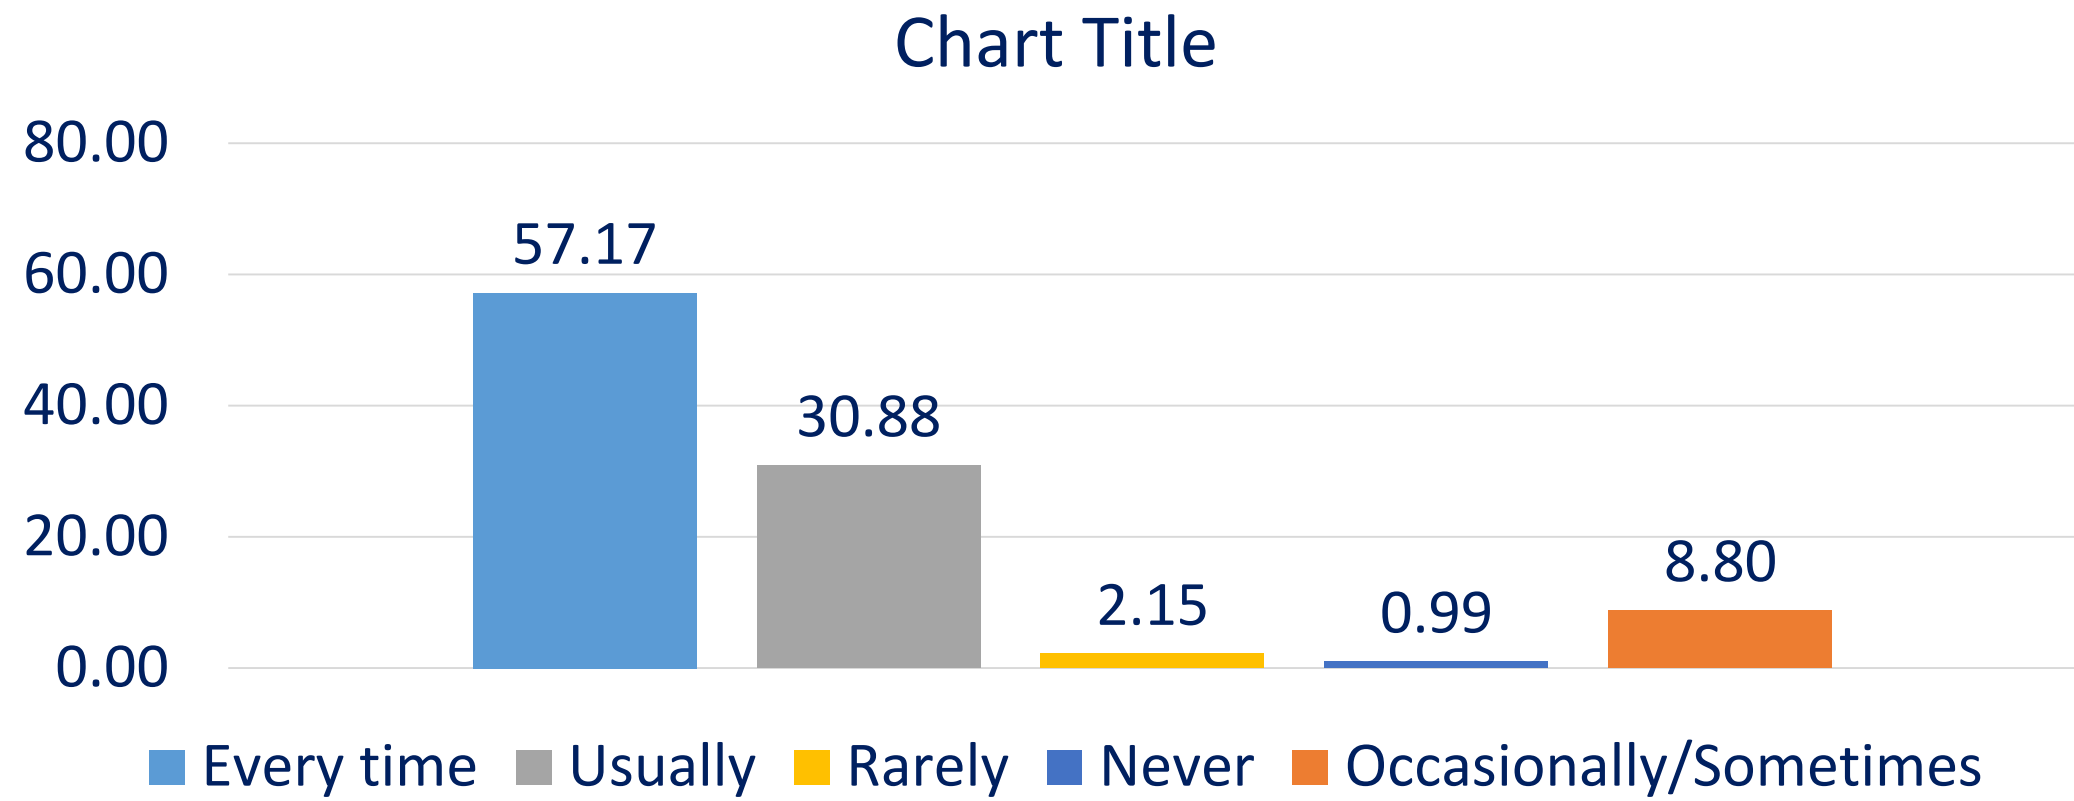

Teachers inform you about your expected competencies, course outcomes and program outcomes

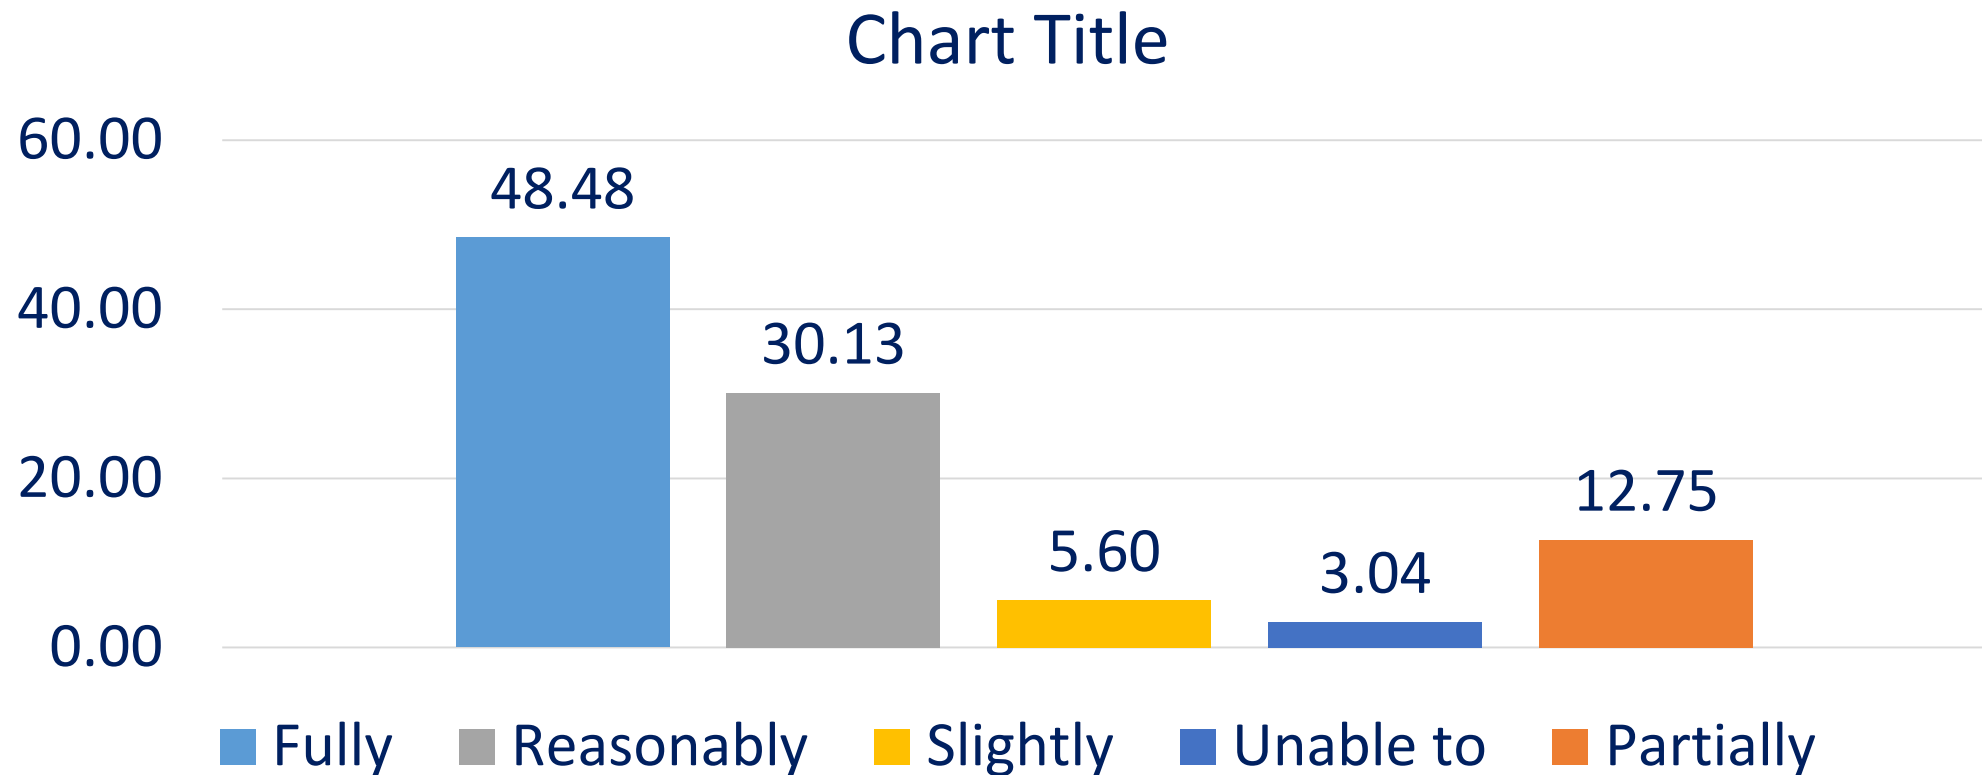

Your mentor does a necessary follow-up with an assigned task to you

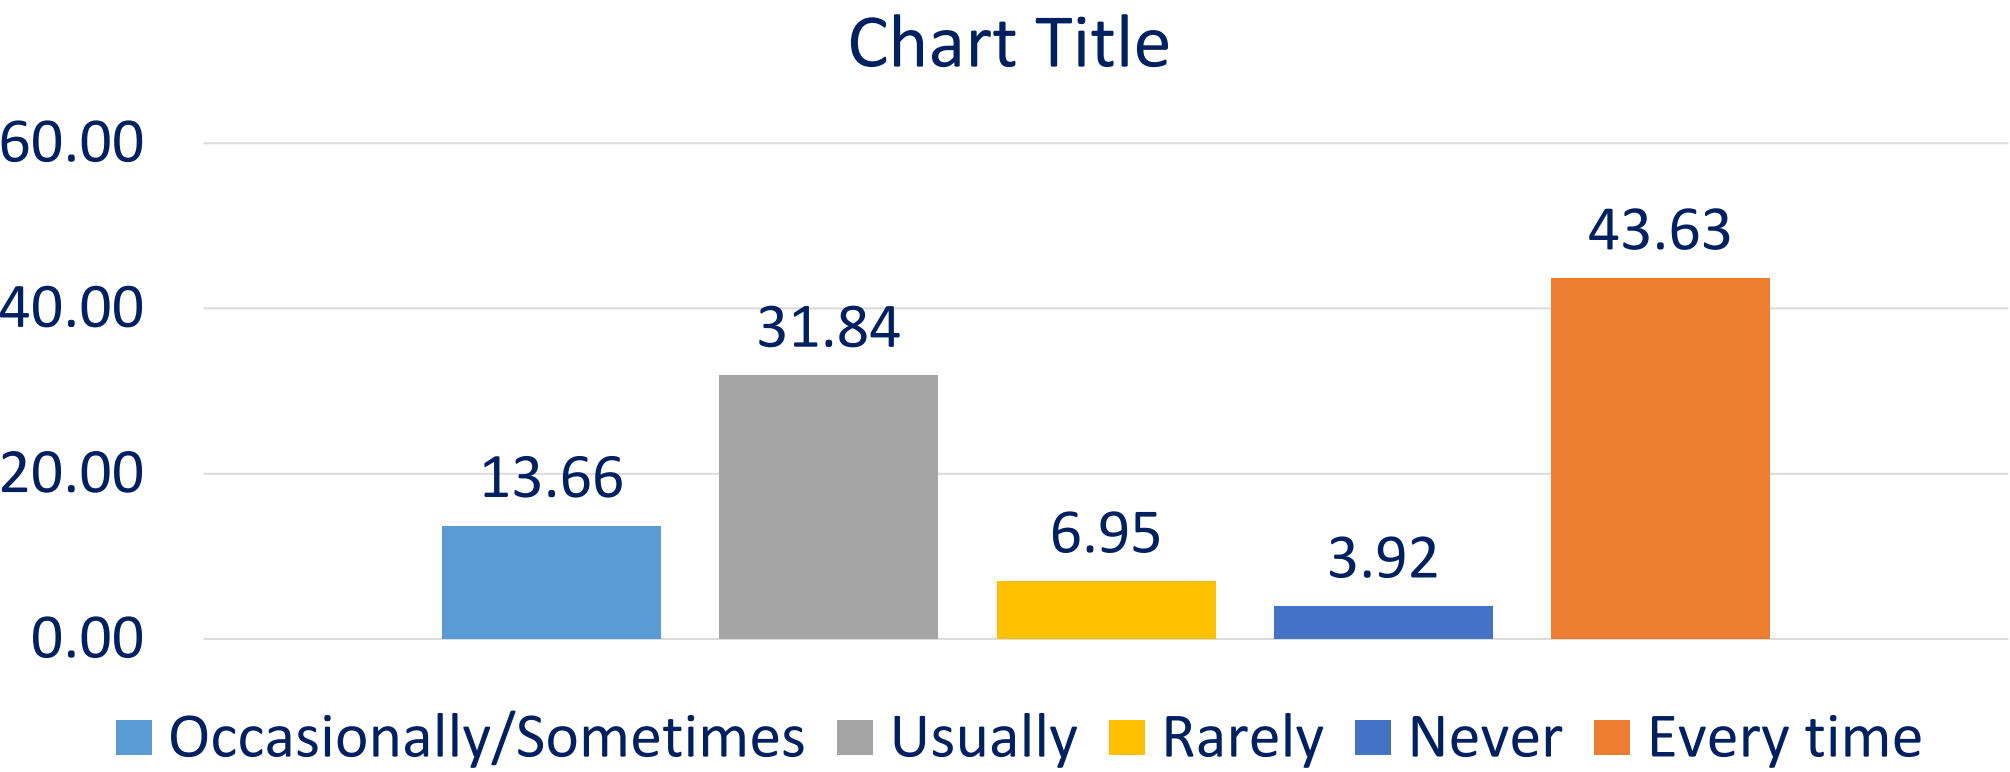

The teachers illustrate the concepts through examples and applications

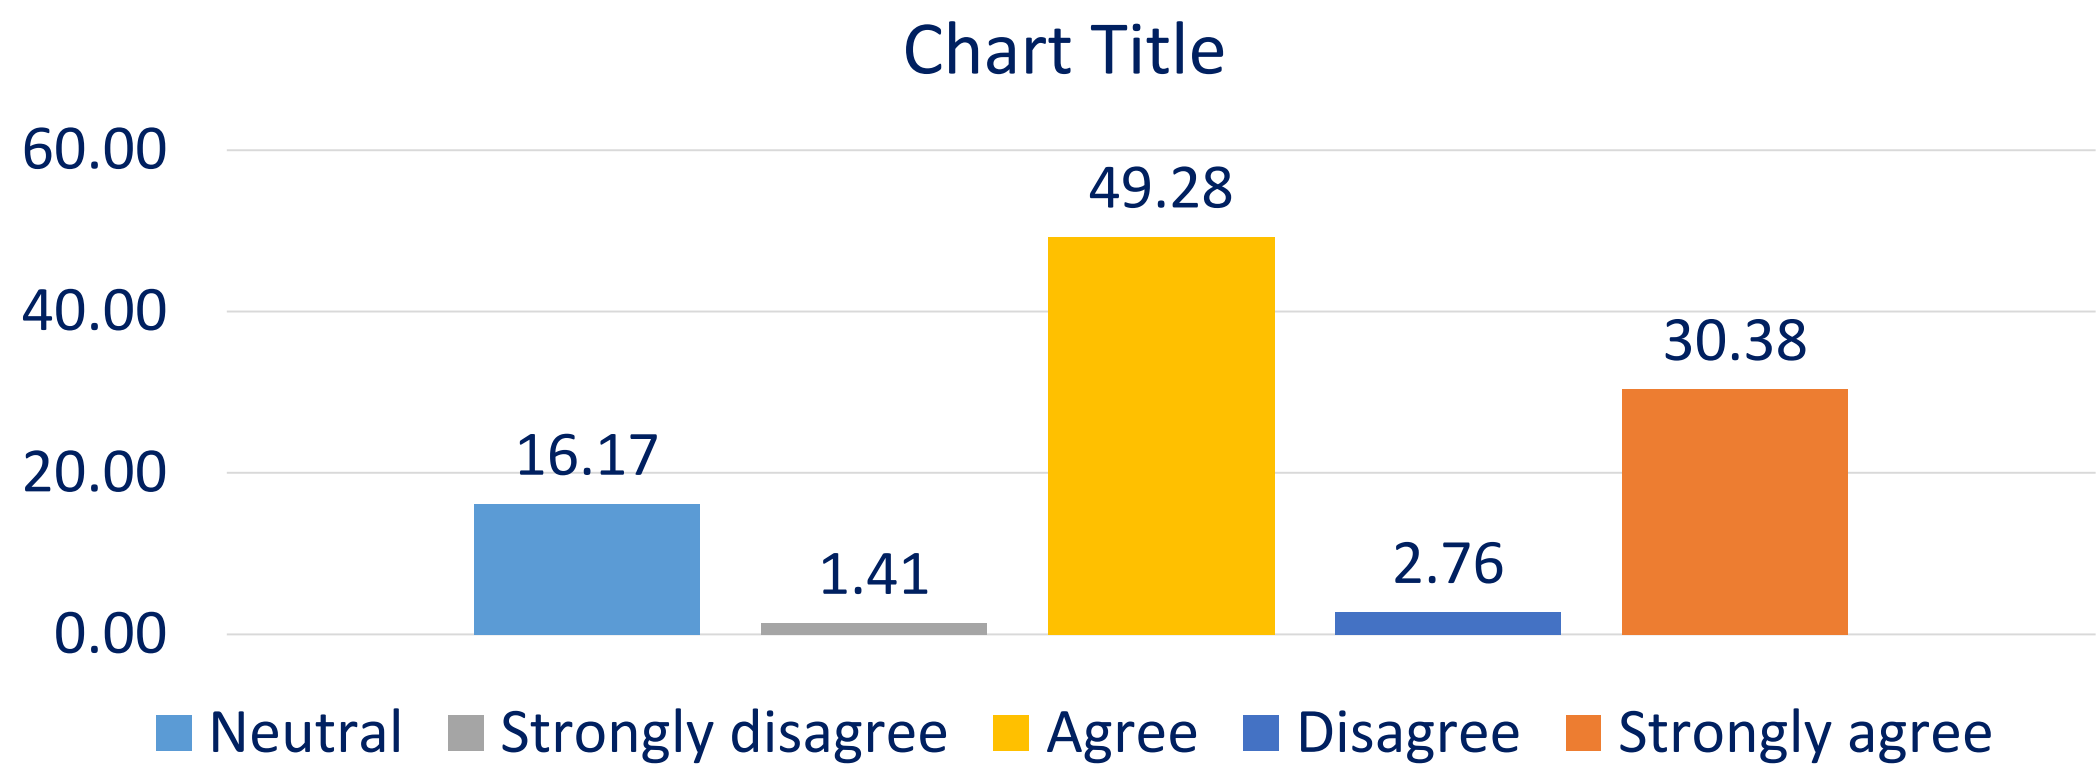

The teachers identify your strengths and encourage you with providing right level of challenges

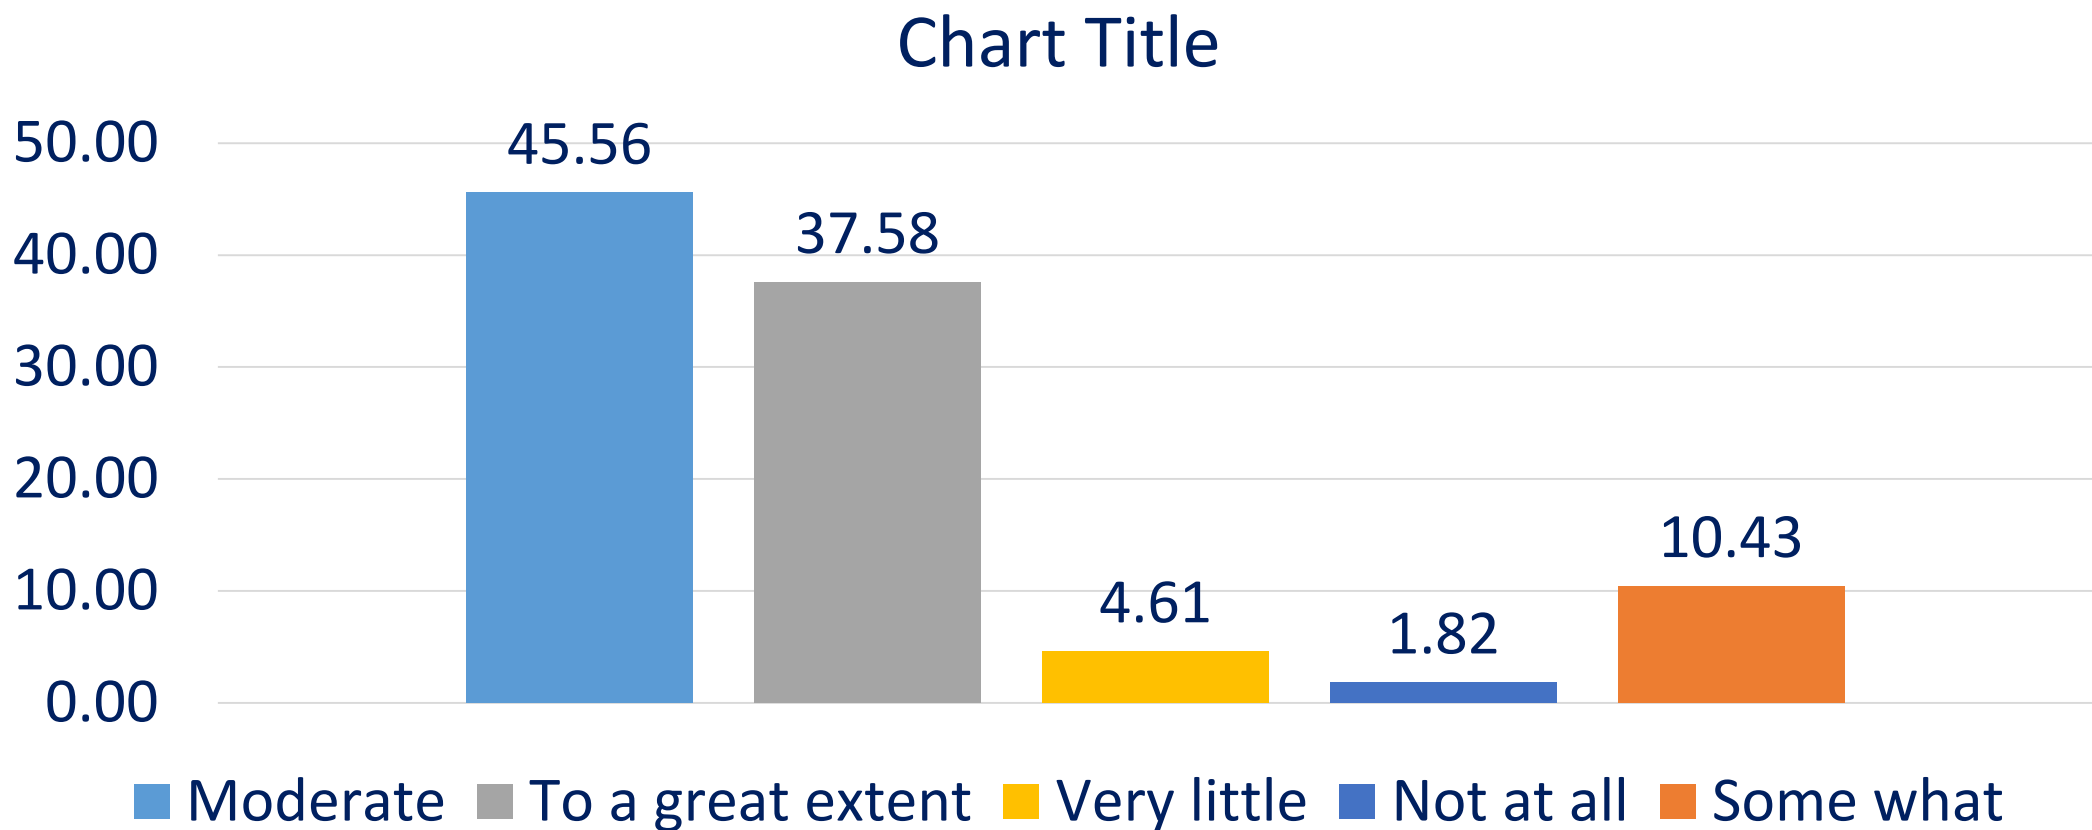

Teachers are able to identify your weaknesses and help you to overcome them

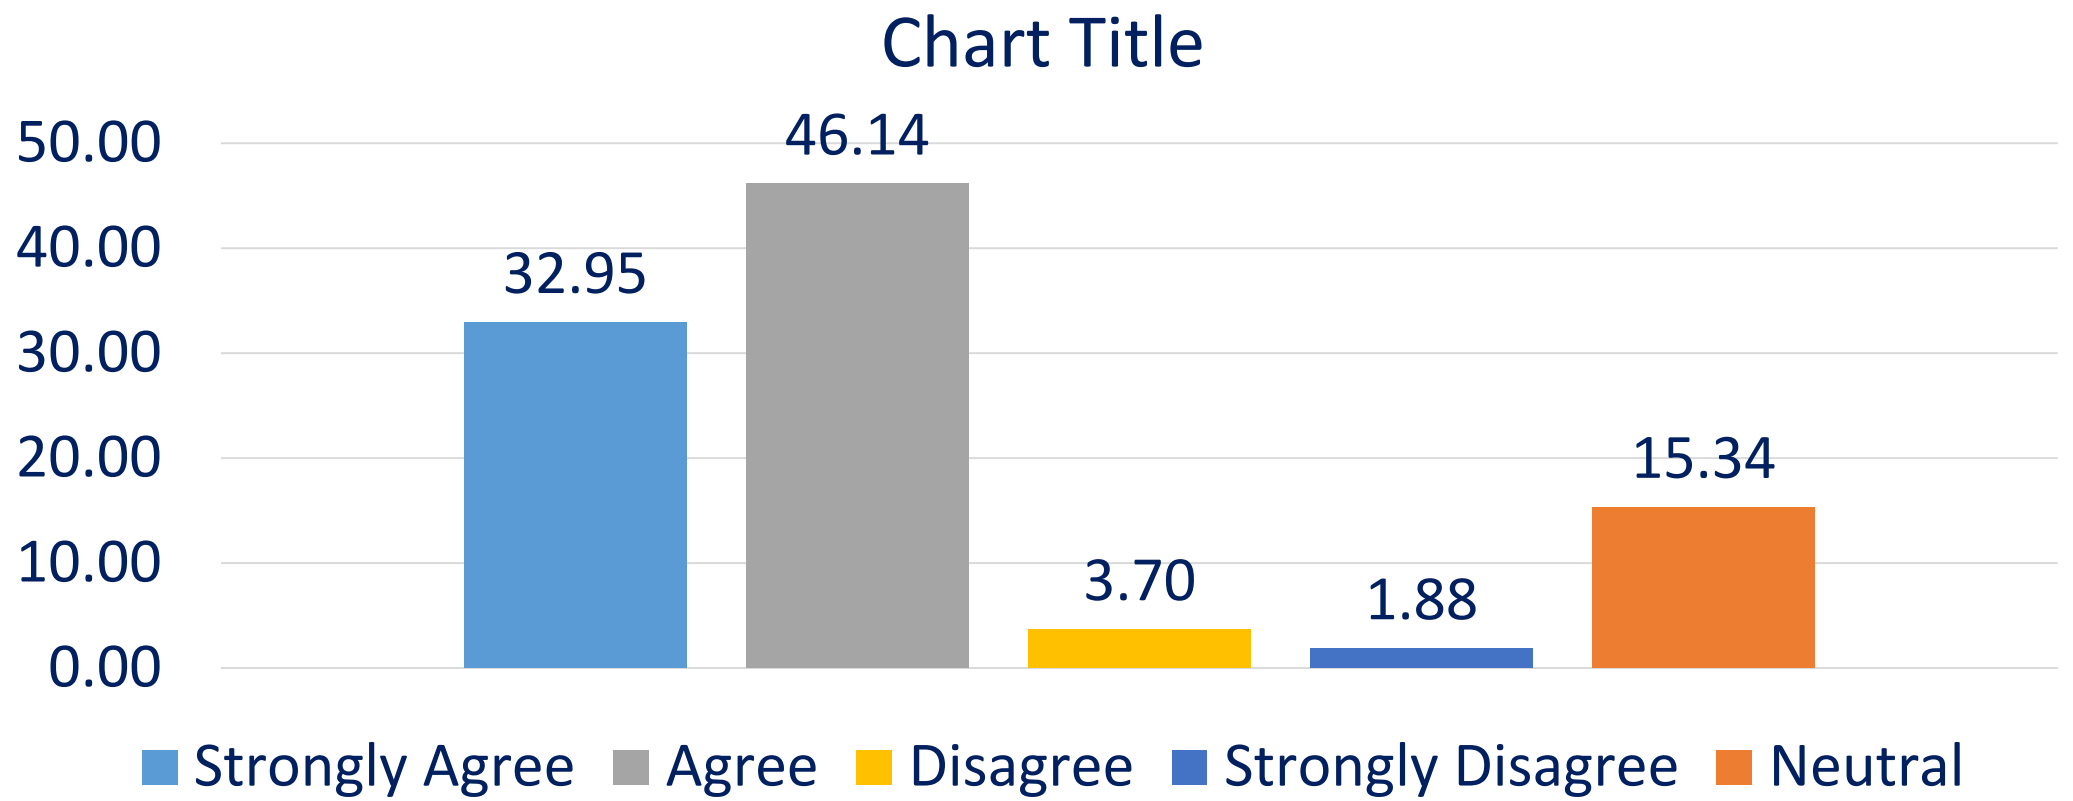

The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process

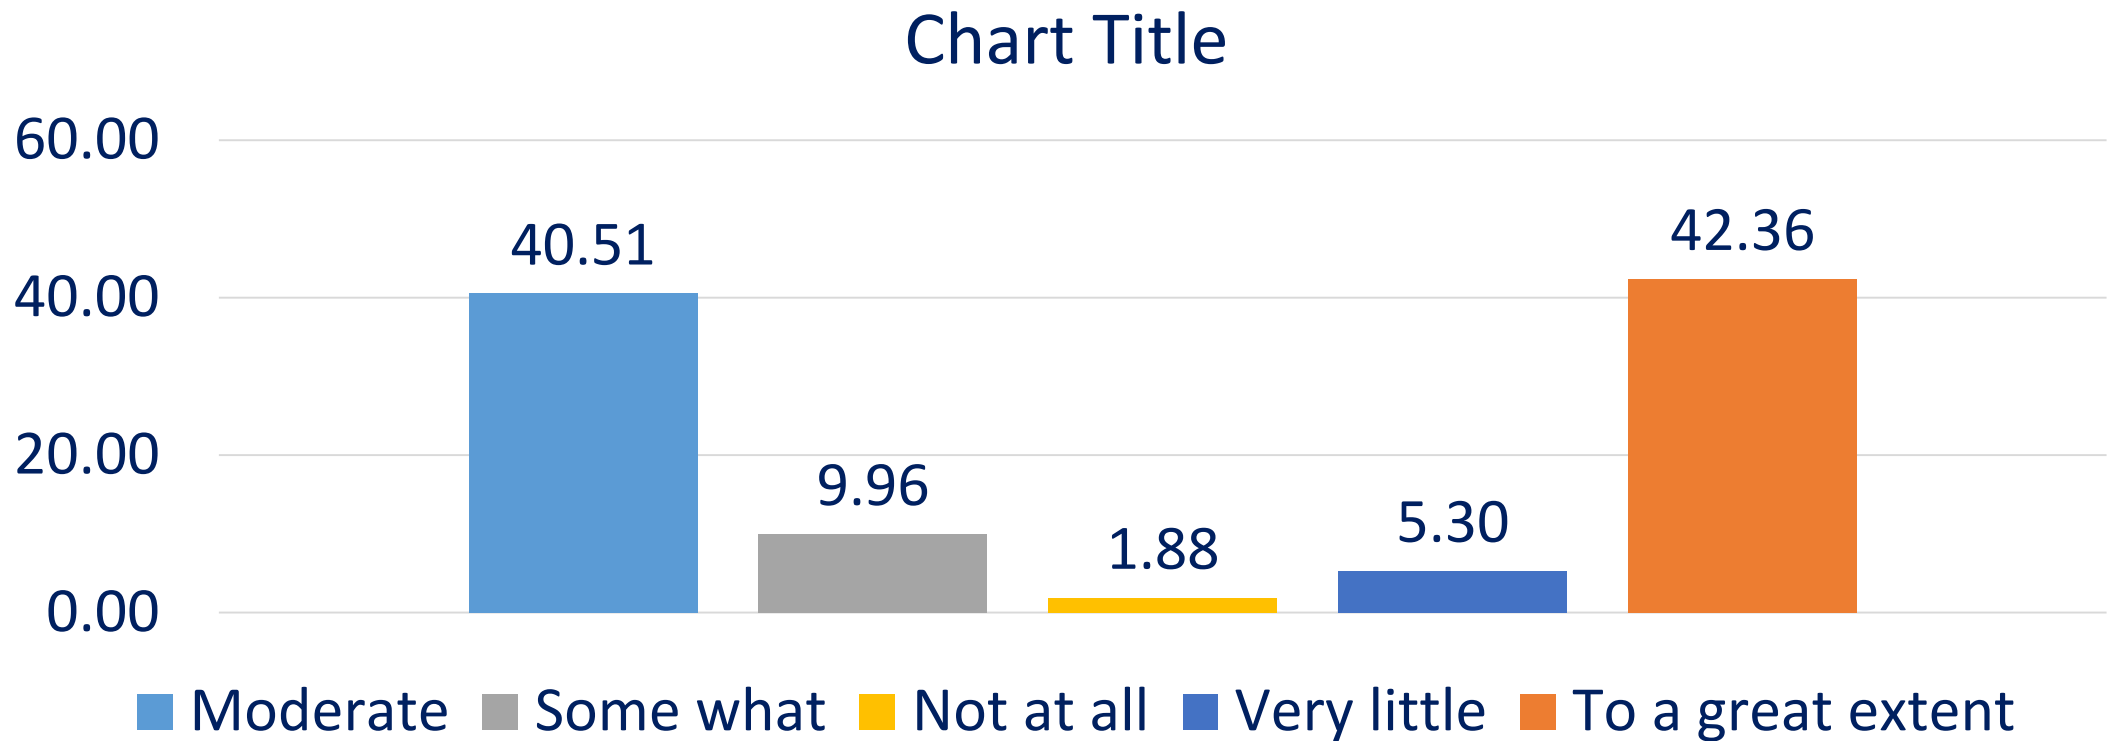

The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences

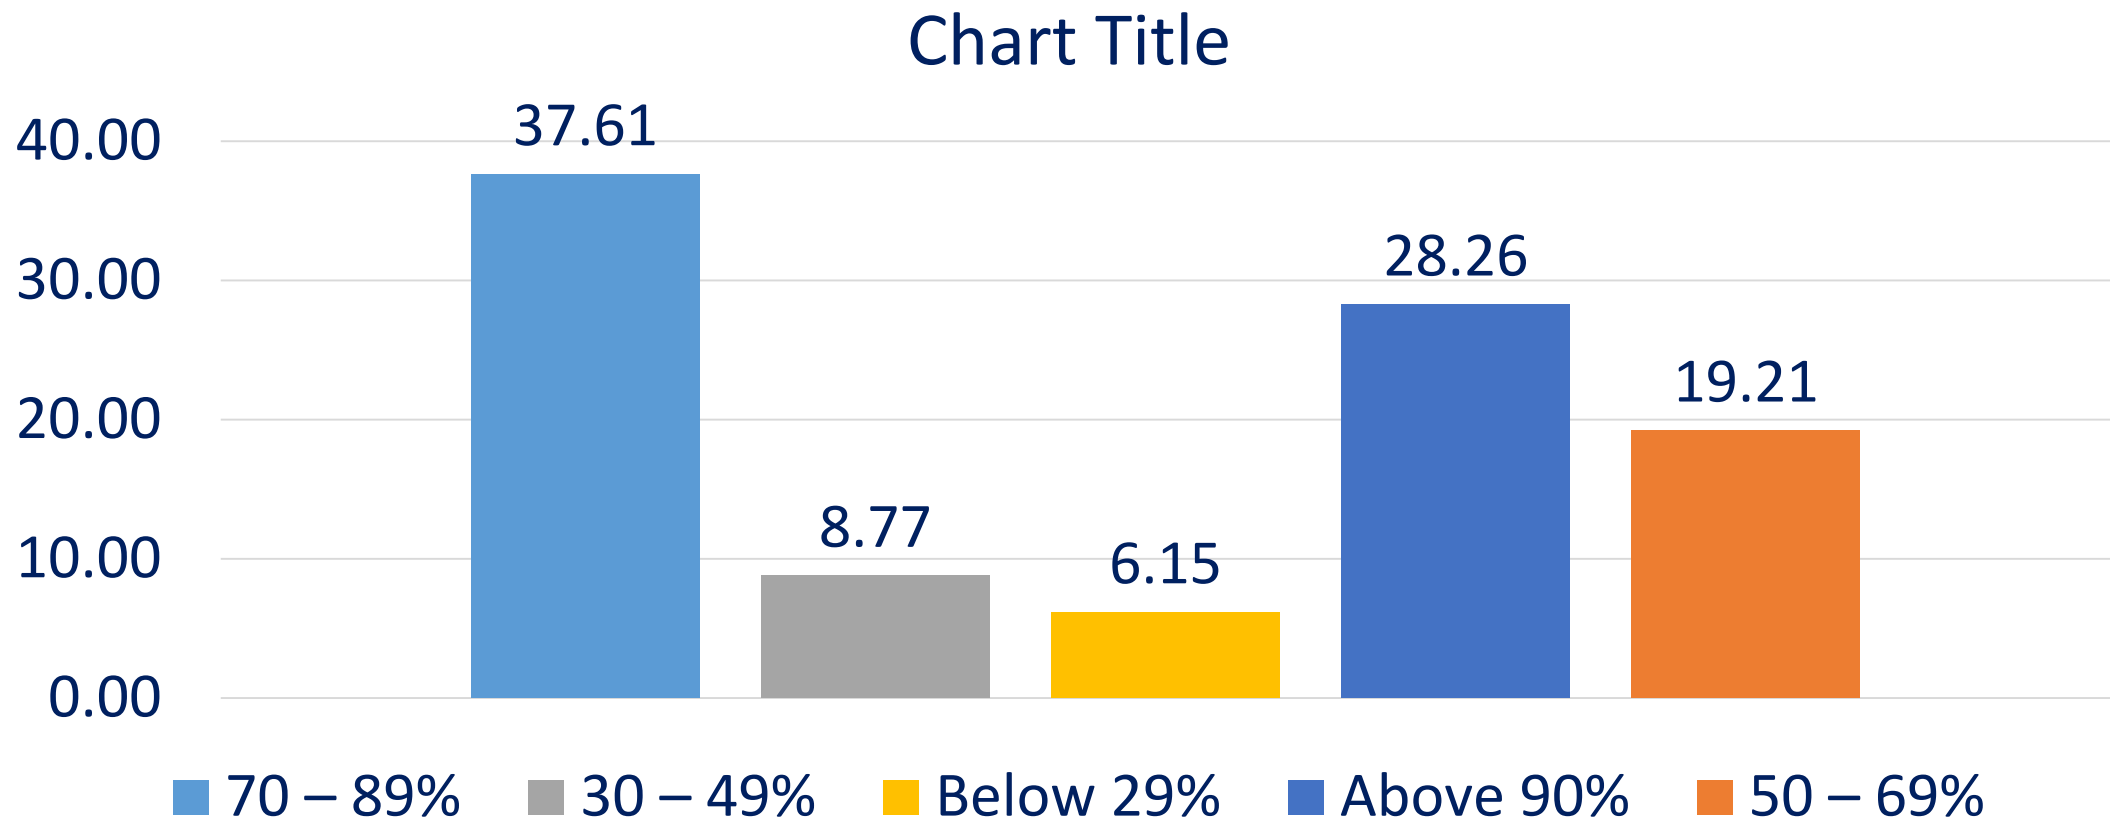

Teachers encourage you to participate in extracurricular activities

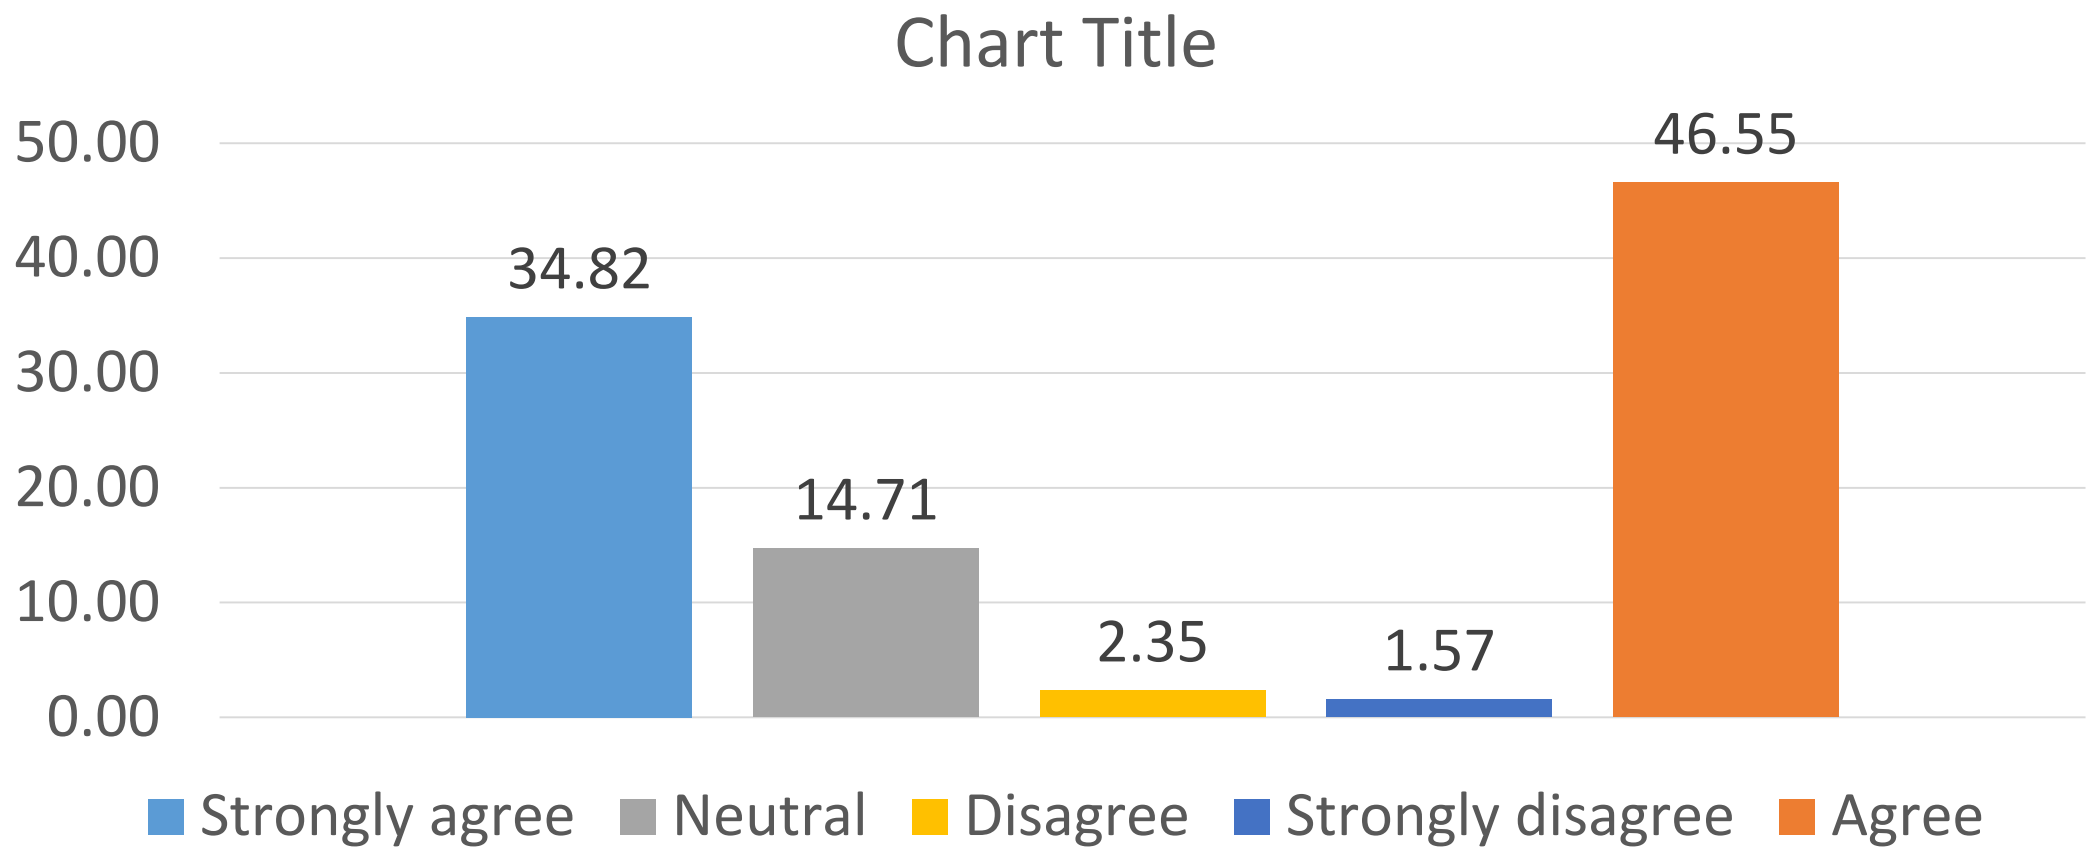

Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work

What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching

The overall quality of teaching-learning process in your institute is very good

Comments

- Proper schedules for classes should be made before commencing of a new semester.
- The online classes should be more interactive, for this students should be put in groups.
- Teachers should try more useful techniques to make teaching better. Set of members in zoom not more than 30
- More number of study materials should be given.
- From the 3 internals they take two best marks and again go for average calculation, which is just not good. If they add the best one mark from the three internal exam, that would be better.

Comments

- Equal opportunity given to each and every students.
- Revise syllabus with better example
- Conceptual learning should be increased,
- Provide study materials
- Practical videos of the topics
- Physical class, communicate with each single students in online class, clear their doubt until they understand
- WHATSAPP GROUPS CREAT FOR SUBJECTS

Comments

- Decrease the course
- Do proper doubt clear class
- Decrease the load of assignment
- Daily base examples , how to face the difficult situation in life , life lessons.
- Having network issues
- With a better explanation
- Class should be more interesting.
- College should allow to visit industries and provide internship.

Comments

- Improvisation of Industrial requirements to get a job, Focus on coding subjects, Help from Faculties while doing a project
- College should give more intension in coding and English speaking.
- The teaching is probably good but somehow syllabus is not sufficient to reach GATE level.
- College should allow to visit industries and provide internship.
- Try to reach every student and ask for their doubts ..
- Make teaching a two way interaction.

Comments

- Improvisation of Industrial requirements to get a job, Focus on coding subjects, Help from Faculties while doing a project
- College should give more intension in coding and English speaking.
- The teaching is probably good but somehow syllabus is not sufficient to reach GATE level.
- Apart from regular classes there should be some industrial tours to make things more effective to learn.
- We should be provided with doubt clearing sessions during our study hours.

Comments

- Separate the time table properly sometimes it's confusing.
- I suggest to contact directly to students by meeting and ask us is everything is going on properly in every 2-week starting.
- Time table should be manageable
- Sir's should intimate about the class before half an hour
- Schedule classes regularly
- Usage of ICT Tools
- Do regular checks on students improvement
- Update the internal marks in ERP and disclose our marks to us.

Comments

- Some faculties takes classes after/before working hours(online), which causes difficulty in time adjustment.
- Fair conduction of external viva by external invigilators.
- 1-2 faculties don't teach well but take the external exams at a very hard level which is not at all fair.
- For lab practice we need some extra efforts becz in online mode the lab classes are impossible.
- More Teachers Should be Recruited For Specialized subjects, no of teachers can be increased.

Comments

- Individually attention to students who unable to understand the topics.
- Evaluation must be done in proper manner
- Give less assignment then ,we can maintain our time for self - study.
- Transparency in conduct
- Letting students to talk and indulge in conversations
- Methodological enhancement of syllabus
- Teaching method 2. No of teacher

Comments

- The class should start and end strictly according to the provided time.
- Should give more assignments and project works.
- Should find a good medium to share the class recording and documents with all the participants.
- Physical learning would be more effective
- Lab experiences virtually is not that much effective
- Others are alright

Comments

- Doubt clearing classes.
- Tell us about curricular activities.
- Need to clear the concept, teacher should be know what should be taught, all topics should be covered
- Give more and more examples based on real life environment so that we can more effectively
- Voice problem sometimes it gonna fast and not able to understand so if it is moderate and clear it is easy to understand
- labs will to do time to time.

Comments

- online classes is best but offline is understand very much and learn more and also we have do programs near to the faculty .
- Skill course is important to learn more things
- As I am a new student I haven't attended many classes . But in 2-3 classes of mine I am very much happy with the faculties
- I am very glad that such teacher are giving us knowledge and they are full encouraging us for every field.
- For online classes every student should participate in discussion.

Comments

- Teaching methods of teachers are very good and helpful to students.
- Apart from studies teachers also guides students for carrier opportunity in different fields.
- Better time management and focus on every students and try to push up
- While taking attendance the list of the student should be on the screen so that every one can know if they are present after their call
- All teaching skills are good but now this time is Covid19 so online classes are doing but in online classes we face problems for network issue because of weather and other things.

Comments

- As a M.Sc student,I feel everything is going smoothly.
- Increase time of online lectures.
- All other things are good.
- Use better graphics and visual media to engage students well.
- Try to reach every student and ask for their doubts.
- Make teaching a two way interaction.
- Use better graphics and visual media to engage students well ..
- Try to reach every student and ask for their doubts ..
- Make teaching a two way interaction.

Comments

- Each teacher must be supplied with stulus. So that they can use the white or black board.
- Minimal use of regional language
- Teachers should not take class in evening or other than schedule timing because students may have some other works to do
- Concept should be cleared, Teacher should know what should be covered, All topics should be covered
- Latest Computer systems with dual boot.
- High speed Internet with good wifi coverage(10mbps minimum)

Comments

- Please make sure that each & every student is with the flow , don't make someone feel left alone.
- Please share the stuffs (PDF , ppt) you follow ,with the students on the same day you teach (So that we can follow up the things which we didn't get while in the class)
- Try to co-operate the students who are unable to communicate properly .
- Due to this pandemic situation online learning is good but some problem in online learning so offline class will must be occur

Comments

- Classes on Communication skills should be given more priority. Making Theory only subjects little more interesting & interactive. Including more T+P subjects in Basket 4. Physical/hybrid classes should not start at the middle of an ongoing semester, rather should start from the beginning of next possible semester, after relaxation of COVID norms.
- Get out poor lecture from the college
- 1st one is that the teaching of electrical engineering not that much deeply
- The faculty should be more open so that the students can ask doubts without hesitation

Comments

- Classes on communication skills should be given more priority
- Use better graphics and visual media to engage students well.
- Try to reach every student and ask for their doubts.
- Make teaching a two way interaction.
- Better Library and laboratory facilities.
- Better laboratory and library facilities for students.
- Make course expectations explicit .
- Maintaining healthy bond between student and teacher.
- Maintaining discipline.

Comments

- Use of blackboard and recording it by a camera in subjects associated with mathematics and board work(Organic Chemistry).
- Better teaching techniques and Easy-to-comprehend notes for dull students in an particular elective subject.
- Better Guidance in the form of Doubt Clearing Classes along with Classes for JAM Preparation for students must be allotted if possible.
- Be as private as possible
- Treat every student equally time wise

Comments

- Please speak with students very friendly.
- It's better to provide more faculty members in ERP section.
- And please allow us at the time of exams some people are facing problems during at the time of exams
- The syllabus should be on student core basis subject
- Continue online classes ,Better English speaking teachers.
- More Software related knowledge for circuital branches students
- Enhancing learning through applications, enhancing students engagement, encouraging cooperation practices.

Comments

- College should provide content of teaching which is useful for competitive exams such as gates' so that probability of getting job should be higher
- College should provide it's own subject wise study material
- All lecture are cooperative ...sound quality should be improvised..teachers must be clarify the doubts in depth....
- Giving opportunity to each and every student.
- Conducting Career counseling class.
- Student problems should be solved.

Comments

- Encourage all the students to participate in every programs.
- Internship opportunity.
- Enhance more practical knowledge and increase the no.of projects & paper works in master degree.
- Should provide various internships and job opportunities.
- Should encourage each and every student to participate in every programs.
- Should enhance more practical knowledge and increase the number of projects and paper work in masters and bachelor degree.

Comments

- Need all the class room projector facilities, and need large room for comfortable sitting arrangement and set up micro phone for a better listening
- Offline classes are more effective.
- In online classes, sometimes we face network error.
- Giving too much of projects
- Teaching hours to be minimized
- Teaching must be lit bit slow
- More practical classes

Comments

- More audio & video materials
- Enough time to prepare for exams, projects etc
- It's effective for the cognitive, affective and psychomotor domain of learners.
- Help the student for over all growth rather than pressuring them to learn all the time
- More clarification of the mails to students
- It troubles students with the fees structure mentally....and charges unusual fees. otherwise teaching is good.

Comments

- I need some skillful teacher
- Practical knowledge should be more
- Interaction should be there weekly once
- Class must be interactive
- As online classes are going on teacher should use whiteboard thoroughly to make us understand some topics.
- We are getting mails which are not related to our purposes . Like we are getting mail of examination which will occur for B.Sc students. Sometimes it is very confusing. We should get some specific mail needed for us.

Comments

- Every teachers are So much friendly and helpful .
- IT domain faculty is exceptionally well. There should be more of quantitative classes than exams. Process such as course registration should be a bit faster than usual.
- Better teaching platform
- All faculties teach us very well
- The teaching method is disaster.
- Teachers are very rude .
- Hostel facility is very poor.

Comments

- Systematic arrangement of syllabus that is much more necessary for students in future
- As all the student are from different universities at the BSc level....all the syllabus were not covered by the specific universities at the BSc time ...its a problems from some students newly introduce to a new subject.....but due to good effort and hardworking by our teacher...we can handle this problem smoothlyoverall Good
- Conduct Of line class
- Waiting for physical class

Comments

- I am Happy with Cutm and all teachers are skilled so they don't require any suggestions.
- Include some extra topics to certain subjects will be helpful.
- Continuous modifications of Basket-4 core subjects leads to uneven learning, it should cover all essentials subjects.
- Encouragement for research and higher education should also be encouraged.
- They can give more internships if possible
- If possible can send mails in details

Comments

- Class should be more interactive and practical application related to the studying topics should be discussed
- I am a newly joined student of this institution...our physical classes are not started yet...but the online teaching method is excellent & the way of teaching of all the faculties is very good
- Providing us proper notes
- Exam related questions discussion from notes
- Regular smart class studies
- Better to arrange meetings with deans or hod every month if it possible.

Comments

- First think teacher find out students weakness.
- Tech in this ways..
- Better understanding ..
- Class should be taken regularly
- Teachers should take care that all are attending class
- Teacher should also use technology for better understanding of students.
- All are good but if take some cultural programme and some deferent activities then it will be good

Comments

- If teachers are spent some time with students as their parents then it will be good .
- If celebrate every festival in campus then teacher student bonds are so strong & start a role that all students and teachers are mandatory to attend all the festival .
- Notes should be provided by teachers on certain topics which are actually tough to understand
- I got good experience from the University through online . But it will be more good when classes are taken in offline mode.

.

Comments

- Offline classes
- Computer knowledge development of M.Sc student as the institution is a technical institution.
- Enough time prepare for exam
- More practical class
- Use More and more experiments and research based practices
- 1st of all I am so happy to join this institution...bcz I really like the teaching... Of all teachers... And I understood all that things thoroughourly and... All teachers are good conversation with all the students..

Comments

- All subject teachers are most experienced...they tell us all things ,which is best for us.
- Physical classes are far better than online classes.
- Face to face conversation between student and faculty has decreased.
- A teacher should encourage the students always
- First change your system then higher best teachers for individual subject
- First change your CBCS system, then hire good teachers for individual subjects.

Comments

- I have no answer on most of these questions because now I attend the class online so after join the university physically ,particularly i will answer all of these.
- Sometimes ,due to some network problem I can't get the attendance after that when I told the teacher that I was present, the teacher behave us rudely.
- Open the university soon please.
- Good environment and teaching skills. Excellent!
- Better network connection

Comments

- A teacher should encourage the students and talk about new ideas.
- Due to network issue we are not able to give attendance in proper time its better to give attendance link .so that we can fill it in time
- Is better if teacher ask questions to each and every student.
- I have in MSc first year so I can't suggest any changes because only two months I have in cutm
- But the study is excellent.

Comments

- By giving equal importance to all students.
- We should emphasize on practical learning.
- Encourage social learning.
- Make learning more visual.
- Virtual labs must be included.
- To allow more skill based examination.
- To add more valuable things.
- But as soon as possible please make offline classes it's better for us .As continuously looks to phone screen it affects eye.

Comments

- Go through the materials and clear the basics
- If a revision process will add after every class, it will be more effective for us
- Know your students ability by interacting
- Encourage students to participate in extra curricular activities
- Faculties should start with the basics
- Teachers should LCD projectors while teaching to make teaching more effective.
- Every one should get equal chance to do the practical.

Comments

- Some doubt clearing and revision classes of all subject should be organized in every week.
- Know your student's ability by interact to them.
- Encourage them to participate in extra curricular activities.
- Teachers should elaborate the basic fundamental of the topic to the student for best learning experience.
- They should add some course which is required to national and international level exam
- More focus on experimental view rather than theoritical .
- Add more practical

Comments

- Virtual lab must be included.
- To add more valuable things.
- To allow more skill based examination
- Try to reach every student and ask for their doubts.
- Use better visual media to engage students well.
- More emphasis on skill based learning skills in the students.
- Avoid load of presentation work in topics that are not included in csir net entrances like ornamental aquaculture and animal breeding.
- Teacher should have a class in a week about knowing students problems

Comments

- Institute should give quick response to emails
- There should be friendly faculty for every subject
- We should get the clear cut information for any upcoming exams and survey rather than mail i.e in whatsapp official group, so that we will not miss any imp things.
- In mail most useless things are coming which are not for us and that makes us very confused .So it is much more better to give only those things which are for us.
- Class representatives(CR) should be changed in every month so that all should get equal priority not only 1 or 2 in the whole class for whole year.

Comments

- All the teachers inspire us to follow and chase our dreams by means of hard work.
- To allow more skill based on Examination
- To add more valuable things.
- Virtual labs must be included.
- The faculties are very interactive in class.
- More focus on experimental view rather than theoretical.
- They should add some course which is required to national level exam.

Comments

- Teachers are very cooperative.
- They have made a positive difference in my life.
- By Providing Internships, By working on more real-time project, Individual guidance needed .
- Should More focus on experimental view rather than theoritical.
- Faculties are very interactive in class
- They should add some course which is required to national level exam.
- Revision regularly, give task regularly & take some extra class

Comments

- They should add some course which is required for any national and international level exam.
- Should more focus on experimental view rather than theoretical.
- Faculties are very interactive in classes. Added courses are good for P.hD and research.
- Go deeper in important topics.
- Ask students is there any doubt in the end of class
- Don't give to much of work load.. which may decrease the interest of self study on the subject
- Give semester wise Syllabus, partially improve way of talking and communicate to every student affectionately.

-

Comments

- Quick response to email
- Interaction class with students once in a week
- Friendly faculty
- Virtual labs must be included.
- Institution is increasing student's skill set
- Students are getting what they are expecting from faculty
- Co-ordination of students and teachers is excellent
- Bring d all academic concepts to life with visual and practical learning experiences

Comments

- Helping your students to understand how their schooling applies in the real-world. ...
- Faculty members are very cooperative
- The classes are very interactive
- Virtual labs must be included
- The class time should be changed to only morning session.
- Interaction between students and teachers should be improved.
- Improving the communication

Comments

- All faculty are very cooperative.
- They are very interactive.
- They have made a positive difference in our life.
- Absolutely brilliant.
- Interactive.
- Permit offline classes.
- Interactive
- Permit Offline classes
- Friendly atmosphere

Comments

- Virtual labs must be included .
- To allow must skill based examination.
- To add more valuable things.
- Virtual lab must be included. Effective skills of works must be added. They should possess cooperative nature....
- Better competency level skills and periodical tests, interactive learning session, regularly updating industrial needs
- Virtual labs must be included.
- To allow more skill based examination.

Comments

- To add more valuable things.
- Change of class timings will be good if the classes would only be at one half of the day not both half because we are not able to get any time for self study...
- Best facilities , best faculty and best learning environment
- Teachers must not take leave during their usual time table classes.
- They shall try to find the easiest way to make us understand the practice classes instead using you tube, it's because the audio is not clear atall.

Comments

- Free e-library should be provided to the students and virtual lab is to be added in the teaching fixture. Thank you.
- All faculty meetings are very interactive.
- All the topics are covered thoroughly.
- It's my privilege to have such great mentors.
- Degreed Learning Experience is an intelligent learning platform that connects your people to the content, teammates, and development experiences that matter most to your business — every day. They build in-demand skills in the flow of work. You build future capabilities faster.
-

Comments

- Degreed Learning Experience is an intelligent learning platform that connects your people to the content, teammates, and development experiences that matter most to your business — every day. They build in-demand skills in the flow of work. You build future capabilities faster.
- Virtual lab must be included
- To add more valuable things
- To allowed more skill based examination
- Virtual lab is must
- To allow more skilled base test

Comments

- To add more valuable things
- All faculty are very interactive.
- They always encourage us and solves our every problem .
- They are very cooperative.
- Virtual labs must be included.
- To allow more skill based examination.
- To add more valuable things
- College should be more focus on internship instead of being stuck to the theory subjects . college never show interest towards providing internship.

Comments

- I am very grateful to respected teachers for their cooperation.
- The online classes are very interactive but if there will be offline classes then it would be better for us.
- All faculties are very much interactive
- They are cooperative
- They have made a positive difference in my life
- Improvement needed in classrooms with projector ..otherwise overall good .
- In online it is a little bit difficult to understand the topic thoroughly.

Comments

- We are not getting enough time for self study because class is from 9.30 to 5 pm.
- We need 1 Or 2 doubt clear class in a week in every subject.
- Able to practice the practical and theoretical concepts parallely.
- One to one interaction is better than other teaching process.
- Online mode could have been a safe and sound option for students until they were vaccinated.
- Every thing is satisfactory but the attitude of some teachers is not friendly towards students.

Comments

- Unnecessary domain and skill classes demand more time that we could have used to study for competitive exams
- Unnecessary PPTs confuse students, it would be better if we were thoroughly taught with a suitable period of time or reduce syllabus so students don't stress and comfortably complete their syllabus and Perform well in exams.
- Really very nice classes and help to us doubt clearing
- To allow more skilled based examination .
- The institute should provide a period of internship for masters students.

Comments

- I am very impressed to my sirs and mams for his cooperative, interactive etc.....
- Try to reach every student and ask for their doubts
- Emphasize on practical learning be virtual labs
- Allow more skill based learning
- By doing practical's, weekly test for preparation of NET exams based on MCQs, monthly presentation on some multidisciplinary topics
- Need to be more student centric
- More technology oriented & more practical oriented

Comments

- Improving the lab facilities.
- Providing more exposure to practical work.
- Using more illustrative tools to provide better exposure to students.
- Virtual lab must be included
- To allow more skill based examination
- To add more valuable things
- Virtual labs must be included
- To allow more skill based examination

Comments

- Improving the lab facilities.
- Providing more exposure to practical work.
- Using more illustrative tools to provide better exposure to students.
- Virtual lab must be included
- To allow more skill based examination
- To add more valuable things
- Virtual labs must be included
- To allow more skill based examination

Comments

- They should provide doubt clearing sections separately.
- They should conduct class tests to examine our writing skills.
- Group discussion and quizzes are needed.
- It should be more practical oriented.
- Uses of more technology for better learning.
- Providing more learning tricks for tough subject.
- Encouragement of students regarding extracurricular activities
- Provide more examples
- Guide more regarding internship

Comments

- Offline classes should be arranged as soon as possible.
- As there is more network issues in online mode some more doubt clearing classes should be done.
- The mails should be specified to the proper faculty.
- They are very helpful and cooperative
- They have made a positive difference in my life
- All faculty members are very interactive
- The classroom action is not a necessary thing to be submitted. The only thing that is required to submit is lab activity.
- More books in the library

Comments

- College should have a smart class in each class and being a biotechnology student we are not getting lab to do practicals and taken to parlakhemundi to do so...even during this covid situation also we are said to go there..I want bbsr cutm to provide us lab here only.its a request.
- All domain Subject should be related to core subject.
- By giving proper time table and by sending the class link before 1 to 2 hrs
- All the faculty members are very much interactive.
- They are very cooperative.

Comments

- Some teachers/faculties are well concerned, that they used to inform about our upcoming classes. either they inform a day before or in the morning itself but few teachers inform instantly when they gonna take class, so distinctly i faced some problems in attending those classes. so its a request please to inform earlier.
- Though online classes are going extreme well enough by all the teachers and clear enough, within this one thing is missing that, i want daily class recorded sessions as like impartus. where i can see recorded classes anytime whenever required. so please take a look on this how to get the recorded sessions.
- Virtual labs must be included

Comments

- To allow more skill based examination
- To add more valuable things
- Domain course and project are beneficial for us.
- All faculties members are interactive.
- Classes time are more so I feeled boring.
- All teachers are cooperative.
- We should cooperative with our teachers
- We should focus on co curricular activities along with curricular activities

Comments

- Diagnostic test should be takes place to measure learning difficulties of students
- Good University.
- All teachers and mam are very good person.
- As Now online Teaching is going on these should be taken into consideration:-
- After teaching materials should be shared among us so that we can Revise it once again.
- Proper communication between the teacher and the Students should be there.

Comments

- In case a doubt is not being cleared in the class room/during that period then one extra doubt clearing class should be there once in a week for clearing all the doubts.
- All faculty members are very much interactive
- All our teachers are very co-operative
- They made a positive corner in my life
- All faculties are very cooperative
- They are very interactive
- Thank you for emboldening me.

Comments

- Regular Assignment checking , can use different language for understanding , explanation with examples.
- Good University.
- All teachers and mam are very good person.
- I grateful to You.
- Field study , Industry visits, Corporate working culture
- Skill and Domain should be optional not compulsory. Let allow us to make our experiments in our lab. Focus on the quality of the study not the quantity of the study.

Comments

- Virtual labs must be included.
- If college will provide important mails to us we will be helpful instead of all type of mail
- All teaching process is good but the time between odd semester to even semester examination is too low so we are unable to prepare ourselves clearly. Please change these things thank you. Also sometimes there are some faculties who are satisfying there ego during paper evaluation so that's students are facing problems.
- All the teachers are best but institute are very bad...

Comments

- Every thing is good ,
- Sometime, happens network issue.
- Timing can be reduced
- Network issue to be fixed
- Some of our teachers are very understanding, problem solving and cooperative. And some are very strict and rigid.
- I wish all of them to be understanding..... Fetch everyone's help and guidance.
- Practical Exposure/Study Tours

Comments

- All of them are well and fair in approaching towards the students. But I hope it to strongly continue the same.
- More encouragement to enhance the creativity and cognitive thinking should be done.
- There should a government committee to check the Institutional fees. So that no organization dares to do corruption in the name of Education and everyone could avail the opportunity of higher education.
- Our teachers are well qualified for their respective positions. Hence they have proved this many a times.

Comments

- Infrastructure of the institution and availability of resources are sufficient for students, keeping the overall developmental aspect in mind.
- Mentor should focus on students weakness,
- Competitive programming environment for CSE students,
- Advance Technologies should be introduced in syllabus.
- Teachers are very cooperative.
- There should be quick response of every mail sent by the students to the university.

Comments

- Allow more skill based training and examination.
- Teacher should take at appropriate time.
- Should provide us Class timing before atleast 12-15 hrs before schedule Timing.
- Teachers should demonstrate the class through practical and theoretical.
- All the teachers are best but institute are very bad...
- Professor have knowledge but can't be expressed to say how
- Encourage students by prize/awards in each department level

Comments

- The teachers should be able to take classes without having to worry about other works.
- We need visits/field trips to other areas to learn more about different parts of our syllabus.
- You have to increase the submission time of assignments due to students lack internet connection
- Give chance for internship and training
- Students should be more encouraged and some hand holding should be there while they do projects.

Comments

- Better industrial training should be given before doing the major project.
- Better visual material, with moderate speed of teaching
- By taking Teacher-Student doubt clearly class and small exam after completing each Unit of a subject.
- Teacher corporates student
- offline batter than online
- Class time increase leads to more effective in studies
- Experienced professors
-

Comments

- Brilliant method of teaching
- All lecturers are friendly in nature
- To add virtual labs in online teaching.
- Allow more skill subject examination.
- Allow more valuable things.
- During 4th year teachers need to start technical classes along with aptitude classes. So that it helps us to revise technical part.
- According to my observation the process followed by our teachers is really good. This helps us to understand things in practical way.

Comments

- Giving more and more examples.
- Teacher & students regular interaction
- More practical learning
- On the job training
- Explanation of every topic must be taught using more real life usage examples.
- Overall the teaching technique is good and helpful.
- Interactive presentation
- Basket credit shouldn't be changed in regular years.

Comments

- Mentors shouldn't be changed regularly.
- Need to take classes for more time
- More video and audio quality is needed
- Enough time for preparation of exams.
- Teacher should promote us to take part in extracurricular topics.
- Should more teach us about the new things which are new to industries.
- Appoint multilingual faculty, make sure they speak proper grammar, get a counseling for them first

Comments

- Co-operate with student
- Give notes as soon as possible
- Understand student's problem
- Should focus on experimental learning
- Should take to study tours
- To encourage in other co curricular activities
- Engage students in assignments that have a clear connection to learning outcomes, as opposed to those that are perceived as busy work.
-

Comments

- Provide opportunities for students to be a mentor and to function as a peer teacher.
- State the learning outcomes and make clear connections to the real world.
- They are very cooperative.
- All faculty members are very much interactive.
- Offline classes should be organize rather than on-line..
- Design the curriculum properly..(many-core branch oriented subjects are omitted, instead of that we are forced to take Python, java...If we would have interest in that we must have taken CSE...Let us learn the core subjects first)

Comments

- The teacher should be so friendly that students can feel free to ask their questions comfortably.
- There should be as much interaction between the teacher and the students as possible in the classroom.
- Teachers should do this daily to the students that they can keep their innovative ideas open in front of everyone.
- College higher authority should check there students that what they reading and what they are learning instead of making money.
- Teachers skills are too good but at least they shouldn't do partiality between there child's(students)

Comments

- In this college we learnt many things but didn't Learn how to manage things ,Because college don't know too.
- Every things is good but any information regarding exam they should inform us earlier.
- Detail discussion, group discussion and introducing some animation in online learning will greatly us in overall understanding
- In our institute, our very well teaching style always stay for us.
- Our practical class must be available.
- Class room teaching is very infective

Comments

- Teacher must be efficiently teaching us in class with example and syllabus must be completed within time, revision must be done.
- Practical must be done goodly with proper explanation.
- Teachers must encourage the class students always and must clear the doubt after each class, must be provided the better placement by the college.
- Whatever the decision may be taken by college , students must be agree with that because many of us faces a lots of problems.
- More emphasis on presentation mode of teaching. Arrangement of student Seminars. Field visits must be a part of the teaching process

Comments

- Few teachers are exceptionally Good
- More open-minded ness
- More practical less theoretical
- Intuitive understanding of the subject
- Practical things related to our branch (Aeronautical).
- More faculties of our branch (Aeronautical).
- Use of easy languages like Hindi...
- 1st 1-Start Physical class
- 2nd-Use smart board or multimedia during classes.

Comments

- Overall The teaching process is well. All lecturers are heeling us strongly.
- Start Physical class
- Use smart board or multimedia during classes.
- Overall The teaching process is well. All lecturers are heling us strongly.
- Use better graphics and visual media
- Try to reach every student to ask
- Some times Very rude behavior of college management & employee towards the students, lack of response.

Comments

- Cut is good institution there is good environment for English.
- Encourage students, be friendly, clear all doubt.
- Institution should more focus on industry specific knowledge or work other than basic learning skills for the specific departments.
- Institution should more focus on practical usage of the subjects rather than theory.
- Courses should be covered with time but not with fast pace approach.
- Motivate students to join in extra curricular activities

Comments

- The process of learning in our institute is very good. Teachers are very friendly with students for sure students are more comfortable. Overall our experience is good.
- I would like to give positive response. 1.The faculty members are very much interactive.
- They are very cooperative.
- They have made a positive difference in my life.
- Classroom teaching will be more helpful rather than online teaching.
- Start from the basics cause some students might not know the basics

Comments

- Interaction between teachers and student. Explanation of topics using interesting examples. Asking of more and more questions so that our doubts can be cleared.
- By doing teacher-student doubt clearly class and small exam after completing each Unit of a subject.
- All classes should be more interactive and engaging. Before moving to a new concept, the faculty should ensure that the students are confident about the concept previously taught. 3. It is appreciated that the students are given an opportunity to provide feedback for the faculty.

Comments

- All good...nothing to suggest...All our teachers are so friendly..We are grateful to have teachers like you in our life. Thank you so much all my teachers.?
- For any kind of examination or any kind of meetings please give a proper notification before TIME . Thank you.
- Classroom teaching will be more helpful rather than online teaching.
- Interact with students periodically
- The teaching methods are no-doubt good, and they explain very well but still it needs improvement, to interact with the students more and more.

Comments

- Find the weak point of the students.
- And, try to make sure the students will not fear from you.
- As online classes are going on sometimes it too difficult to manage everything
- Classes should be more explanatory
- More doubt clearing classes
- More interactive classes
- While they teaching for us facing some network issues from them
- Teachers must make the concept clear by providing examples, wherever necessary.

Comments

- More effective example should be given and also some notes to refer them.
- The information given by teachers and university should be more clear through mail.
- More information about what needs to be in class answer test.
- Conduct the observation at the beginning or in the middle of a student time with the patient for two minute with out interrupting
- More effective example should be given and also some notes to refer them.

Comments

- The information given by teachers and university should be more clear through mail.
- More information about what needs to be in class and test.
- To add more valuable things.
- Virtual labs must be included.
- Add more skill based programs.
- All Faculty members are very much interactive.
- They are very cooperative.
- They have made a positive difference in my life.

Comments

- During this covid -19 time , we have missed many things like hospital visits and the practical experience which is most important for our subjects he can get opportunity for hospital basis and more practical experience that will be better for our subject and career which help us for making strong grip in our branch line
- Galaxy clusters, galatic rotation curves
- College should develop their management system..because management system is very poor.
- They must provide an environment where the students feel free to ask and clear their doubts, not fearing the consequences of the so and so teacher may get irritated.

Comments

- Teachers must encourage the students in more activities.
- Teachers must identify the weakness of the student.
- Teacher must encourage the participants in extracurricular activities.
- Giving more practical classes
- Frequent faculty teacher
- Needs extra time for teaching
- Image base learning
- Example of videos base teaching

Comments

- Teacher's should share their camera. So that we can interact with our faculty.
- Should have a doubt clarifying session.
- It will better if teacher ask questions to each students in every class before starting the teaching ..otherwise question randomly to some of the student so that the student will aware about question and they will prepare themselves accordingly.
- Overall it is good learning in our Institution but there are some problem which is very demotivating
- Overall it is good learning in our Institution but there are some problem which is very demotivating

Comments

- Evaluation of result must be according to them students knowledge and performance not by their face (Avoid partiality).for which this things affect a student being depress and they ll not do hard work further for better performance..
- Do practical classes regular
- Everything is going in a very good way
- It will be better to give notes like we have in our physical classes as we can't be able to attend the physical classes for cobid-19 as the situation is not yet stable. So we need full support from our university so that we can learn the prospective very well to achieve our goals in our respective fields.

Comments

- We also need the recordings of the classes so that we can access them after the classes or when we need to clarify any points again. It will be better to take the classes in impartus app again as it is very much user friendly and we can easily get access to the previous classes recordings. It's my own experience opinion.
- Teacher should support in extra curricular activities
- Teachers should explain in English and Hindi
- Mentors should give motivation at least in a week
- Being an aerospace engineering student i would like if the Institute arrange some field visit opportunities for student

Comments

- We also need the recordings of the classes so that we can access them after the classes or when we need to clarify any points again. It will be better to take the classes in impartus app again as it is very much user friendly and we can easily get access to the previous classes recordings. It's my own experience opinion.
- Cell biology ...anatomy... physiotherapy excellent
- Every week hospital visiting must need.
- Practical knowledge more need for this after pandemic situation.
- Introduce some more Aerospace core subjects and skills in our curriculum rather than unnecessary skills.

Comments

- A minor friendly interaction with students will definitely improve the overall teaching.
- Not only theories, but practical aspects of few subjects must be explained in details. (Can be improved only in physical classes)
- There is a good point that, online teaching is always been a plus point for learning outcomes when we proceed for better understanding, and the efforts by this university which provides the facilitates on the behalf of teaching platform is yet impressive, and needed to be improved for better results in future.
- Coaching for higher studies should be given.

Comments

- Focus on each student should be improve
- To divide the class in small sections.
- No of classes and timing of classes should be less
- Engaging students in learning
- Helpful and supportive
- Understanding and know the subject well
- Engaging students in learning
- Get resources (like aero lab) for aerospace engineering students and get more faculties.

Comments

- Helpful and supportive
- Understanding and know the subject well
- Provide hands- on activities over straight lecturing.
- Facilitate in- class discussion groups and group work.
- Listen to students concerns and respond properly.
- Spend more time with students and communicate with them personally.
- Use multiple media tools.
- Provide proper study material.
- Improve teaching process and practical class

Comments

- Remedial Mathematics class sir should speak slow so that everyone can understand him . (here sir means ranjan sir) . nor every class is going smoothly. i have no complain on other classes.
- Classes should be done on time.
- Regular time table should be followed
- Teacher should frequently ask questions to students during classes
- All are teaching method is well in this pandemic situation .
- It's is already good no need of suggestions

Comments

- Complete course in time
- Give suggestions in time
- Provide all necessity in time
- More informative , communicative and in-depth Analysis
- Need to emphasize on practical learning as well as theory.
- Conduct learning activities in the classroom with the help of technology or any materials.
- Capture student interest by activating prior knowledge.
- Give time for extracurricular activities

Comments

- Should promote field visits for students to get a better understanding
- Equipments should be more
- All teachers teaching process are very excellent.. it is very helpful for me for getting knowledge and studying. Teacher's description process is very simple which help every student easy understand.
- Give same priority to every student.
- I don't meet physical with teachers
- We should get a proper future planning and learning outcomes. Teachers should encourage extracurricular activities. Smart technologies should be used to make a concept more clear.

Comments

- Online mark evaluation should be showed to students, so that they can know their mistakes and further correct it.
- TO PROVIDE EXPERIENCED TEACHERS
- All the Students and Teachers should talk Continuously in English while in Online/ Offline mode of classes. There are some Faculty/Students who Start talking in their Mother Tongue and other students are unable to understand their Words.
- The institute make effort strongly
- We are doing a professional course without knowing any practical

Comments

- Every time teachers should be able to identify our questions and doubts
- Need more practical sessions, 2.more problem are to be solved., 3.shortcuts for time consuming problem can be conducted.
- In mathematics subject teacher should use white board for proper understanding.
- 2.. teacher should take monthly test for every subjects .
- We are giving our course fees at right time but we are now studying in Google Meet which is not okay for our studying. Impartus was best platform for learning

Comments

- 3..... teacher should take a class of doubt clearing classes when syllabus is fully completed.
- Equal and non-biased attention
- Training the students in the direction of getting placed in the future.
- Try to reach every student and asks for their doubts .
- Make teaching a two way interaction .
- Make course expectations clear and based on learning outcomes.
- More Test Class. More Doubt Clearing Class .Attach Theory Class With Practical Class

Comments

- Class links are not provided to all the students.
- Offline classes must be started soon to provide a better interaction with our teachers
- Last but not the least all the teachers must dictate some notes during the class so that all the students would get attentive in it.
- More emphasis on practical usage of our learning's
- More opportunities for internship should be provided by college
- Industry related topics and events should be kept in mind while teaching

Comments

- Introduce technology in the classroom
- Personalise the learning experience of the students
- Conduct Outdoor Teaching (lawn, garden or any other places)
- Exam motivated mcq Or peroply
- Need well educated faculty.
- improve friendly atmosphere into the campus
- management should take students concern effectively
- Please open University for rest rest Years students. We have to know all practical's.

Comments

- make a student union because they better understand what problem students are facing so that they approaches to management and help them to rectify the problems which students are facing.
- Practical based practices are needed more often.
- More equipments are needed in radiology department.
- Institute should listen to the complaints of the students and take actions as per the conditions and need.
- TEACHERS MUST TO BE MUCH ACQUAINTED WITH ONLINE TEACHING METHOD. MUST BE HIGHLY PREPARED.
- PHYSICAL TEACHING MUST BE STARTED.

Comments

- Better improvement of the above mentioned
- Provide internship
- Good Placements
- Take classes physically not in online
- Attention
- Production
- Motivation
- Physical class is far better than online classes.
- Practicals are more required than theory.

Comments

- Way of teaching should be more improved.
- Conduct more field works to gain the main knowledge to be utilised in any organisation.
- Discussions and collaborating in class are essential for encouraging students.
- I'm an engineering student I feel there is highly required to provide hands-on skills to the students, engineering it's not only about the theories they usually teach. University has good resources of machines, software, and everything but they don't bother to teach the students, for example, there are 4-5 CNC machines & for the last three years, I have never touched any of them. University usually does their promotion by quoting 'Skill University' but the sad reality is there is no skill at all.

Comments

- There should be more use of ICT tools, such as LCD Projectors and Multimedia for teaching. As it enhances the learning experiences.
- There should be a consultation class where they should explain us about the outcome of our course. The consultant should provide us with right knowledge, so that we can decide which field one should choose for the best outcome.
- They should provide us variants industrial visits so that we can get touch with its atmosphere and get knowledge about its experience.
- I wish there were more practical's
- Use better graphic and visual media to engage students well.

Comments

- Try to teach every students and ask for their doubts.
- Make teaching a two way interactions.
- Can't suggest everything is excellent.
- Assignments discussion before giving
- A discussion only class
- Teaching not only in English but also using Hindi or mother tongue
- Every thing is really nice here, especially environment is peaceful, faculties are always helping and Hygiene of both hostel and campus is very good.

Comments

- Can give us better classroom with good projector.
- Teachers should teach every child fairly.
- The institute should be properly informing about the tests.
- Its became helpful for us if the live classes are recorded so that we can repeatedly listen the lectures which help us for better knowledge.
- Please solve the Online exam server connection problem.
- After the lockdown we shifted to the online classes and they came up with the virtual lab, but it is just a notepad or word type of software where we just have to write theories and attach pictures from the internet, what is the real outcome of this I have never understand.

Comments

- So that teacher student interaction will must be increases
- Facilities of library that's why students are able to reading sufficient books as they required
- Place a experienced teacher in every department.
- Try to focus on practical work rather than going for assignments.
- Don't do partiality between students that if a student having difficulty in any part try to help them rather than if a student do well we only focus on that student.
- Need physical class as soon as possible

Comments

- By doing teacher-student doubt clearly class after completing each Unit of a subject
- Do revision again for poor student.
- In part of blood circulation, path way, some regulation in chapter these part are teach with video so students are learn and remember easily.
- All teaching style are good, and kindly start our physical class as soon as possible then our teaching and learning experience are more improve.
- Class teaching should be more interactive and participation of every student should be ensured.

Comments

- There should be a review session or Q n A session at the end of the class where teacher's should actually know if everyone in the class is actually learning effectively or not.
- More industry visit, internship program and practical learning experience should be encouraged.
- I am satisfied the teaching skills of some teachers no issues.
- Use the best platform for online class or experiment
- Till now the overall teaching process is quite beneficial for us.
- Make connections to real-world applications of the course material.
- Provide for hands-on activities (active learning) over straight lecturing.

Comments

- Online teaching has always been an advantage to us but physical classes would have been better for learning things practically.
- Efforts by university to conduct the teaching facilities to improvise our learning is up to par.
- Overall good
- Practical is mandatory for all of us
- We need physical classes for practical's for professional studies
- Facilitate in-class discussion groups and group work.
- Provide opportunities for students to be a mentor and to function as a peer teacher.

Comments

- Healthy competition in class
- Attending all the classes should be mandatory
- Assistance should be there while selecting subjects at start of the semester it creates a lot of confusion among students which subject to choose.
- Projects should be given through all semester and it should have a limit we have experienced some semesters where no projects were and in some semesters we were packed with projects upto 5 in one semester only which creates a lot of pressure.
- Provide for meaningful teacher-student interactions.

Comments

- As our course is based on practical knowledge we should be exposed to field visits very often.
- Most of the syllabus should be taught in the practical approach.
- The teachers are well prepared and help us cope with any doubts or problems faced in the concerned topics.
- Physical classes should be started ASAP!
- Providing some faculty.
- Recommend more practice time for better experience.
- Need more teacher and student communication

Comments

- Change the teaching style
- Give more time for exam preparation
- Set a particular timetable
- Interaction with all students
- Physical classes are much better than online learning.
- All the marks should be shown. Getting all the information on time.
- Physical classroom
- Automatic attendance system in online classes
- Assigned projects in a group

Comments

- Getting all the information's on time. More number of revision classes before exam. Good examination app without any technical issues.
- More number of revision classes before exam, Getting all information's on time, Teaching in English during elective class
- Everything is fine ,as our is based upon every advancement in every case, teaching ,conducting exams in each sector .
- Doing the physical class .
- Practical explanation will more effective
- Improve according to the all students decision

Comments

- Make the sessions with more practical knowledge.
- Take us to the field trips and study tours to gain practical knowledge.
- Encourage the students in extracurricular activities then we will improve our skills.
- Classroom teaching will be more helpful rather than online teaching
- More effort on communication skill.
- More visit to various institutes so that practical application of theory is more clear
- Should work more on student teacher relation .

Comments

- This is an overall rating not about any one particular teacher
- Conduct the observation at the beginning or in the middle of a student time with the patient for two minute with out interrupting
- Offline class is must needed. Regular Assessment of the teaching learning process in the university 3-Placement of the student after completion of their courses.
- Provide good quality of internet connection.
- Learn students' names and demonstrate that you care about their lives.
- Listen to students' concerns and respond appropriately.

Comments

- Do classes as per the scheduled time..and if they schedule classes by their own, then kindly inform the timing of the class one day before ,and also inform us if not taking the class...
- And if possible then do the practical classes through physically present.. because it is difficult to understand the practicals via online....
- Use real life experience and examples for making understand the concept.
- Take test after completing every topic.
- Encourage everyone for smart learning

Comments

- Cooperate with students for better study
- Faculty members should be more open so that students can ask doubts easily.
- Extra Doubt Clearing Classes,
- Student teacher interaction should be encouraged more
- There should be more doubt clearing class
- Offline mode is more effective than online mode
- Assessment of students can be done after completion of every topic in form of assignments on a regular basis.

Comments

- More practical sessions can be helpful for the students.
- Sample question paper for each unit
- To improve teaching style and make sure everybody Understood or not
- Very high fees
- Boasted a lot before admission
- Lack of students in branch
- Be encouraging and quick to recognize students' accomplishments.
- Spend more time with students and communicate with them personally.

Comments

- Explain use the type of questions we are going to face in exam and how to answer it
- Provide use with material
- Improved some study techniques
- Network problem is there during classes
- Considering the present situation, physical laboratory classes if conducted, will be better, if possible.
- Make course expectations explicit.
- State the learning outcomes and make clear connections to the real world.

Comments

- More interaction during the classes, like, asking more questions and wanting to know about the pupils' thought on the respective topic.
- More internship program are required, so that our hands on experience enhances.
- All teaching process and management are good.
- All of the above should be done.
- Engage students in assignments that have a clear connection to learning outcomes, as opposed to those that are perceived as busy work.
- Better to improve lab equipment .

Comments

- Class timing is not uniform. It should be improved
- Overall teaching process is good.
- Try to reach every student and ask for their doubts.
- Use ICT tools to describe topics during classes.
- It's help a lot to understand in better way.
- Use a better internet like Airtel etc.
- That's the only problem I have seen..
- Motivate to students about their future planning's
- Encouraging students for other skills
- Better to improve lab equipment.

Comments

- Physical classes will be more better as compared to online classes because in online classes the checking of Homework takes a lot of time.
- In front of the teachers we'll be able to learn in a pretty nice way.
- Use better graphics and visual media to engage students well.
- Try to reach every student and ask for their doubts.
- Make teaching a two way interaction.
- I think Online Teaching is More effective than offline teaching during this Covid time.
- .

Comments

- To learn new skills and explore things
- Communication classes
- Sports
- It's very effective learning program
- Improvement on field works , smart classes and letting students know the right ways for their future. My remarks about college management is good as it provides all the facilities and the best environment with the best facility to achieve much more than expectation.
- Better teaching process

Comments

- Its good but according to timetable the cls r not going on
- For day scholar time is wasted much more which is not good
- We need enough teachers in dep.
- In depth analysis of topic
- Make student involvement in the subject
- Adopt some easy methods of teaching through diagram & own way of presentation
- Good teching process,more encourage student for extracruricular activity
- All classes should have modern equipment for teaching and learning experience

Comments

- THE BEST THING ABOUT OUR TEACHERS IS THAT THEY FOCUS ON GIVING PERSONAL ATTENTION TO EACH STUDENT . THEY PRESENT THE COURSE CONTENT IN SUCH A WAY THAT IT CAN BE EASY TO UNDERSTAND EACH CONCEPT FOR STUDENTS REGARDLESS OF THEIR BACKGROUND(TECHNICAL OR NON-TECHNICAL).
- Better connectivity must
- Teaching properly, complete the syllabus, check record probab
- As I am a Biotechnology student, please give more emphasis on lab work.
- Each and every student should be taught how to conduct the laboratory experiments.

Comments

- Assign to different project to increase student interest
- By listening the students properly
- By giving right information at right time
- Individual monitoring is necessary
- All are good but online class is effect for signal
Being an aerospace student I would like if the institute arrange some field visit opportunities for students.
- Giving us practical knowledge about aerospace field.
- It should arrange more faculties for aerospace field.

Comments

- Teachers should focus on struggling students and help them to outcome from their struggles.
- I just wants to shear my opinion that institution should understand students problems and they should respond to the effectively some of the teachers were responding but some are not.
- Always contact with student and
- Parents about study
- Same importance should be given to the practical as given to the theory.
- Students should be taught how to use the biotechnological equipment's

Comments

- Teach us more practical subject
- Give opportunity to every student to show their talent
- Communication with students and faculties must be done thoroughly
- Every student must be encouraged whether he is good in studies or not
- I have not any experience of physically class. And I want to physically class quickly.
- Excellent university
- The aspects of the subjects should be practically well explained.

Comments

- All the faculty members are well cooperative
- Excellent management
- They all are interactive
- Please avoid giving the example of company case study thorough YouTube, give some different example of new company or self observation
- Give us chance to meet the real requite or hr or managers before applying any kind of interview or company joining
- Weekly test should be conducted.

Comments

- Give us chance to visit real corporate office or industries by which we came to know about the actual work and talk with their employees about the exact work culture in company
- Teaching method. No of teacher
- Doing practical's in class, teaching in class practically, practicing of practical several times
- Add doubt clearing classes more.
- To collect learning record everyday.
- Maintaining notes.
- Quality learning experience

Comments

- Give us material based videos.
- Conducting class test that's why we improve our knowledge.
- Mentoring meeting should be conducted more.
- Add to skill based examination.
- Give us more material related videos, so that we can understand well.
- Regular classes and assessments
- Teacher and student interaction is done in every class.
- Laboratory and practical works should be encouraged more.

Comments

- Teachers should also discuss other topics outside the course , so that students can express themselves more freely.
- More experimental work should be done.
- Sufficient notes should be given.
- Extra doubt clearing classes should be taken
- Mentoring meeting should be conducted more.
- Add to skills based examination.
- To add more valuable things.
- Online class was merely effective

Comments

- As a student my experience is that in our institution online class during this period of COVID-19 i really enjoyed the online courses. It is well plan and lay out, easy for me to follow. The work load (making ppt, solved question answer etc...) is just enough, so i try to finish everything with enough time, learn about the topics not feel overloaded and rushed.
- More network issues happen in classes if good place on full network then we don't facing any network issues.
- More focus on numerical
- Everything is as it should be. So i dont have much to say on this.

Comments

- Guidance for future entrances
- Communication skill development
- Mentoring meeting should be conducted more.
- Add to skill based examination.
- To add more valuable things.
- More focus on problem solving methodology
- Encourage students to communicate more with teachers
- More doubt clearing classes
- Explain with the more effective example

Comments

- Explain with the more effective way, details, etc
- Well equipped laboratory is required
- As we are attending our classes through online mode ; sometimes the network connectivity is quite fluctuating , the teachers should be provided with good wifi connections so that it would be easier on our part to learn more regularly .
- Providing notes for every subject that gives a total clarity about subject.
- There should be a revision class in every week for that week's Syllabus.

Comments

- There should be motivation or communication classes between teachers and students to make them feel motivated and focus well.
- Give some more focus on practical skills. Give internship opportunity to students for industry interaction. Give some time for soft skills.
- In online class use English all the time and everything is The Best.
- M.Sc teaching process can be enhanced in my campus
- By adding more practical examples and relating the things to us practically.
- The overall teaching is some what good by all faculties

Comments

- More practical related equipment are needed.
- Placement and internship programs for M.Sc student needed.
- Encouragement for NET type exam and carrier relative guidance need badly.
- Every facilities are available in the institute, nothing is required.
- More field work
- Live teaching
- More instrumental teaching

Comments

- Give all the students equal opportunity to show their ability
- Besides theoretical lessons importance should be given to such practical that will increase our field of knowledge
- There should be offline classes , cause we face some connectivity issues.
- There is no other suggestion, other than this.
- Thank you.
- Give all students equal opportunity to show up their abilities and skills.
- The planning should be proper about providing online/offline classes

Comments

- Besides theoretical lessons importance should be given to such practical that will increase our field knowledge.
- The authority should lessen the burden of assignment over students, so that they can truly focus on their studies.
- I think good teaching for my college .Then hard working and practice everyday that is success in my life .learning are outstanding .and teaching very good life are depend good characters. I hope all time good practice, writing, understood each point then success.
- Getting all the class recordings right after class and pdfs and notes too

Comments

- Also the teaching should be a little slower because of network issues sometimes
- Availability of all modern lab equipments and study material
- Teacher should explain course more properly instead of reading out slide.
- The student should be given the option to choose whether they want the class to be online or offline
- For an improvement , teachers should encourage their students for entrance purposes other than skills , all these projects , assignments and presentation stuffs are really time consuming these days . We're not getting enough time to prepare for entrance exams.

Comments

- Institute should less focus on money because what is use of study if you cant give exam.
- Fee structure is not suitable for middle class peoples, including me
- Few fees are there like convocation fee, Eod fee, EOD lab fee, internal component fee, ETc etc. im not satisfied in this matter, not only me. my friends also not satisfied, please discuss with students and all the faculties opinion and take the feedback also from us before decide the fee before change.
- Please collect the physical feedback and genuine feedback of every student. and genuinely post it as well as.

Comments

- ERP is not properly maintaining, if once the data will wrong, its not solving, no response of any mail @ from ERP section side. if physically visit the ERP section, they are not solving our problem immediately, they saying come tomorrow or after lunch or after 1 hour, @@@@ i dont like it in this campus
- If any wrong word i said here, then sorry!
- Let the students avail the facilities, which are actually shown to all.
- Practical Exposure/Study Tours
- Field work and study tour should be improved
- Practical education should be given importance

Comments

- Internship Opportunities
- Let the internal evaluation be fair
- Encourage students by prize/awards in each department level
- Design the curriculum properly..(many-core branch oriented subjects are omitted, instead of that we are forced to take Python, java...If we would have interest in that we must have taken CSE...Let us learn the core subjects first)
- Some times Very rude behavior of college management & employee towards the students, lack of response...
- Improvement in Multimedia teaching

Comments

- Motivate students to join in extra curricular activities
- Start from the basics cause some students might not know the basics
- Interact with students periodically
- The teaching methods are no-doubt good, and they explain very well but still it needs improvement, to interact with the students more and more.
- Teachers must make the concept clear by providing examples, wherever necessary.
- Practical demonstration should be prioritized than theory

Comments

- They must provide an environment where the students feel free to ask and clear their doubts, not fearing the consequences of the so and so teacher may get irritated.
- Overall it is good learning in our Institution but there are some problem which is very de-motivating
- Teacher should support in extra curricular activities
- Teachers should explain in English and Hindi
- Mentors should give motivation at least in a week
- Being an aerospace engineering student i would like if the Institute arrange some field visit opportunities for student

Comments

- Introduce some more aerospace core subjects and skills in our curriculum rather than unnecessary skills.
- Get resources (like aero lab) for aerospace engineering students and get more faculties.
- Provide proper study material.
- Improve teaching process and practical class
- It's is already good no need of suggestions
- From the 3 internals they take two best marks and again go for average calculation, which is just not good. If they add the best one mark from the three internal exam, that would be better.

Comments

- We are doing a professional course without knowing any practical
- We are giving our course fees at right time but we are now studying in Google Meet which is not okay for our studying. Impartus was best platform for learning. Still we don't know why our university stopped impartus before one month of our semester exam without informing to anyone.
- Please open University for rest rest Years students. We have to know all practical's.
- It's not good on last semester
- And, if we are given both online and offline mode of class at this crucial period, that would be really helpful. Still in Master course, we have no full strength till today.

Comments

- As I'm an engineering student I feel there is highly required to provide hands-on skills to the students, engineering it's not only about the theories they usually teach. University has good resources of machines, software, and everything but they don't bother to teach the students, for example, there are 4-5 CNC machines & for the last three years, I have never touched any of them. University usually does their promotion by quoting 'Skill University' but the sad reality is there is no skill at all.
- Make teaching a two way interaction.
- Use better graphics and visual media to engage students well ..
- Try to reach every student and ask for their doubts

Comments

- After the lockdown we shifted to the online classes and they came up with the virtual lab, but it is just a notepad or word type of software where we just have to write theories and attach pictures from the internet, what is the real outcome of this I have never understand.
- Want some more practical work individually
- Encourage active and practical learning.
- Due to this pandemic situation online learning is good but some problem in online learning so offline class will must be occur
- The teaching of electrical engineering not that much deeply
- Make course expectations explicit
-

Comments

- Make connections to real-world applications of the course material.
- Provide for hands-on activities (active learning) over straight lecturing.
- Facilitate in-class discussion groups and group work.
- Provide opportunities for students to be a mentor and to function as a peer teacher.
- Provide for meaningful teacher-student interactions.
- Learn students' names and demonstrate that you care about their lives.
- Facing problem of internet during the online classes.

Comments

- Listen to students' concerns and respond appropriately.
- Be encouraging and quick to recognize students' accomplishments.
- Spend more time with students and communicate with them personally.
- Make course expectations clear and based on learning outcomes.
- Make course expectations explicit.
- State the learning outcomes and make clear connections to the real world.
- Audio is not hearing clearly(Sometimes).

Comments

- Engage students in assignments that have a clear connection to learning outcomes, as opposed to those that are perceived as busy work.
- Better to improve lab equipment
- Motivate to students about their future planning's
- Encouraging students for other skills
- Better to improve lab equipment.
- Encouraging for better opportunity.
- Teaching process should be moderate during the class.
- OMR subject type discussion needed

Comments

- Encouraging students for other skills
- I think Online Teaching is More effective than offline teaching during this Covid time.
- Improvement on field works , smart classes and letting students know the right ways for their future.
- All classes should have modern equipment for teaching and learning experience
- Each and every student should be taught how to conduct the laboratory experiments.
- Practical papers should more elaborate and well discuss in the class

Comments

- Same importance should be given to the practical as given to the theory.
- Students should be taught how to use the biotechnological equipments
- We want more practical classes
- Want doubt clearing classes
- In this Covid situation both online and offline classes are necessary.
- More brief discussion in every subject is necessary
- Encourage active and practical learning. Make connections to real-world applications of the course material. ...

Comments

- Weekly test should be conducted.
- To collect learning record everyday.
- Maintaining notes.
- Everything is as it should be.
- So i don't have much to say on this. The overall teaching is some what good by all faculties
- The planning should be proper about providing online/offline classes
- The student should be given the option to choose whether they want the class to be online or offline
- Advance technical tools with respect to time.

Comments

- For an improvement , teachers should encourage their students for entrance purposes other than skills , all these projects , assignments and presentation stuffs are really time consuming these days . We're not getting enough time to prepare for entrance exams.
- Use of More ICT tools
- Field work and study tour should be improved
- Practical education should be given importance
- Improvement in Field works and Study tours
- Improvement in Multimedia teaching
- Introduction of various subjects related to our field for our better exposure to our field.

Comments

- Improvement in Practical based education
- Increase the use of led projector
- Field work should be improved
- Practical demonstration should be prioritized than theory
- The number of co-curricular activities should be increased because the campus has a vast number of students graduating under it.
- Seminars should be more often to enhance the practical knowledge of the students.
- Describe thoroughly with proper notes, don't make any partiality among all students....

Comments

- Apart from this, I think CUTM is providing and creating a great atmosphere for the students to learn and achieve new things in their educational lives as well as in their personal lives too.
- Participative learning & Benchmarking
- Every time we getting notifications about any base line test or anything many students are getting confused about the exam.otherwise every thing is okay.
- All are good but more interaction need
- Actually, I would comment on marking system in Internal examination conducted before the semesters. Actually, here they conduct 3 Internal examination in each Semester, which is really very pressuring for students.

Comments

- The experimental learning should be improved
- The motivational class has to be kept
- To make students more attentive.
- Explain the topic with more examples.
- I think institute should provide inform students about any tests timetable and conduct practice before a week of a real test.
- Encourage active and practical learning and provide meaningful teacher student interaction
- Nothing much to say everything is very good

Comments

- Overall teaching was very good
- Everything is perfect and Excellent
- Conversation should be more appropriate
- Better to go with offline teaching as the virus effect is less
- Use better graphics and visual media to engage students well.
- Try to reach every student and ask for their doubts
- Make teaching a two way interaction
- Being an aerospace engineering student I would like if the institute arrange some field visit opportunity for students .

Comments

- Get resources (Aero lab) for aerospace students and get more facilities Get internship and placement opportunities for aerospace students
- Living little more examples , suggesting reference books
- In bikas sir class there is internet problem
- Susmita mam class there is no problem
- In suchismita main class there is also no problem
- only there is one thing the madam is little bit strict
- Every teacher must use ICT tools
- Every teachers must guide every student according to their strength and weakness.

Comments

- Transforming teaching-learning process: managing resources for students to learn effectively
- As a school leader, you are responsible for ensuring that all students have the opportunity and support to fully participate in learning. This will only be possible if resources are managed effectively and with the explicit purpose of improving the learning process.
- All are perfect, no need of suggestions
- To enhance each and every students.
- If practical is more then , students can interest and then they can fid in there mind.

Comments

- Being an aerospace engineering student I would like if the institute arrange some field visit opportunity for students .
- Introduce some more aerospace core subjects and skill in our curriculum rather than unnecessary skill .
- Get resources (aerolab) for aerospace students and get more facilities
Get internship and placement opportunities for aerospace students
- Being an aerospace engineering student I would like if the institute arrange some field visit opportunity for students .
- Group discussion should actually be inculcated in the teaching pattern.

Comments

- Teaching session should be interactive.
- Concepts should be taught clearly to the students.
- Teachers must be well prepared before lecture session.
- Frequently asking questions to the students in online classes to know whether the students are following or not
- Try to reach every student and ask for their doubts
- Use better graphics and visual media to engage students well
- Make teaching a two way interaction
- Encourage active and practical learning.
- To provide for meaningful teacher student interactions.

Comments

- Lab practical should done on time
- Class link sometimes don't come on time so it has be on time.
- To make it more interactive teachers should ask for notes after every class and ask students to explain the concepts which was taught.
- If anyone is not getting the topic the faculty should focus on them to make it clear.
- Feedback from students. Ask Questions. Regular Tests.
- Also, practical knowledge and brief knowledge should be emphasized on a bit more.

Comments

- Explain with the more suitable example
- Explaining a topic in briefly
- Do some summer internship so that it will better for understanding the subjects
- Any ways if conduct the offline classes then it will be better...
- Hier the particular teachers according to the course.
- Improvement the syllabus, teaching quality, course and program.
- Improve the placement and Internship and do it on time.
- Better information flow through the students

Comments

- Use white board
- Use virtually labs
- Discussion of the previous class topic
- Careful about student.. Sometimes they pressured Or not
- we found physical classes more effective than the online method.
- Better experience for assignment submit
- Since corona danger hasn't subsided, the students who has weak immunity or are prone to infection should be provided with online mode learning.

Comments

- Observed that with online mode of teaching all additional timings that are required in physical class are greatly reduced,so our university did a good job in time management.
- Our centurion university is one step ahead of schedule to finish our degrees in time, it was possible due to foresight of our university management.
- Great efforts from management and as well as from teachers. Happy to be a part of cutm family ??
- Increased collaboration among teacher .

Comments

- Use better graphics and visual media to engage students well. ...
- Try to reach every student and ask for their doubts. ...
- Make teaching a two way interaction.
- A teacher must improve his behaviour towards the students.
- Day by day, the teachers are being less supportive and co-operative. A teachers profession is to interact with the students.
- Use of LCD projectors must be enhanced.
- More practical equipment , More Teacher , better placement
- Giving Mcq questions in examinations as in competitive exams there are no descriptive type questions.

Comments

- LSD and ielts classes should be mandatory for only the interested students.
- Provide regular classes for coaching in jrf , banking and interviews.
- I personally think that mentor should cross-check students progress and try to make best of it
- I wanted to do internships but there is no such type I heard from any teacher.
- With teachings some sports or any extra curricular activities should be held so that students will enjoy while reading .
- Visit to more places for experimental and experience purpose.

Comments

- Practical way of teaching
- Train and teach the students regarding possible opportunities and competitive exams.
- Make course expectations clear and based on learning outcomes.
- Before class starts the particular subject teacher should give the notes or pdf for the particular topic so that student can easily understand.
- To make students more attentive.
- To take more examples.
- Should explain by pointing the things..

Comments

- More practical knowledge should be considered as compared to theoretical knowledge.
- Remove extra topic like job readiness which is unnecessary who wants higher study
- Its very nice feeling to study in this institution. I am happy
- All the faculty members are very much interactive.
- They are very cooperative.
- Good Effective learning experiences. Satisfied
- It needs a proper application for the online classes
- The establishment of a professional learning community

Comments

- Instead of using zoom or Google meet , management should use impartus platform
- Our given routine is not maintained. Faculties are setting classes anytime which are not according to the timetable. So it's problematic for me. It'll be good if the given routine is maintained and the classes could be held according to the given timetable.
- Because I like the teaching ... Process and I understood all the subject...
- During more class activities ,
- Offline classes are always effective way of learning
- Having more field visit

Comments

- Offline is best class online samjh nhi aata h
- Improve laboratory facilities for experimental work
- Improve laboratory facilities.
- If we have a library period means it will enhances our skills through new books.
- Improve laboratory facilities
- Even though the institute has many students I suggest tutors should help students overcome weaknesses to a greater extent
- As we expected more from our teachers it can be more interactive...
- An increased focus on student achievement.

Comments

- Some live example with outdoor environment it will better by in covid situation it's not possible.
- In online mode it's ok with our all faculties they were Very helpful to us .
- Treat with a variety of strategies.
- Use assessment to inform students of their achievement
- More emphasis on skill based learning and promoting entrepreneurial skills in the students.
- Faculty should be giving equal importance to everyone.
- Online learning is a great success.

Comments

- Lab instruments
- Field trip
- Need physical class as soon as possible
- We need impartus app instead of Google meet for online classes .
- Offline class will be more effective than online classes
- Student home work should be checked regularly and explained by teachers
- Some seminar should be done for overall development of student
- To make the proper timing of the classes which are convenient to students.

Comments

- Please allow staff to complete their syllabus within their allotted classes without taking any extra classes.
- Mentors of each class should be more responsible of their children.
- As I am from aerospace branch, I want to suggest that,
- Our class must be taken by aerospace faculties but meanwhile other branch teachers are attending our class. So that thing is just like the university is entertaining us but we are here to build our career not to be entertained.
- There is no lab facility for aerospace engineering, therefore we are not able to visualise, experience those concepts which we learn.

Comments

- Also schedule some field visit program where we can gain experience and the knowledge to work on field.
- Enough tutorials and time should be given to each student's to develop their own individual skill.
- More focus on case study
- Mentor are always contact with their students.
- Always told about what's the students approach.
- Encourage the students.
- Combination of online and offline classes.
- Regular practical's
- Visual explanation

Comments

- Encourage active and practical learning. Make connections to real-world applications of the course material.
- More emphasis on skill based learning and promoting entrepreneurial skills in students.
- They should keep more practical classes.
- They should include internship programs and industrial tour.
- And also give much priority to digital classes.
- more on skill learning and promoting skills more in the students and better limited strength of students and is extremely important because this way students concentrate on studies more.

Comments

- More practical way to study should implement in our college rather than theory. because company's need practical way. college should send students to do internships. so they can learn.
- Co-curricular activities should be a part of daily schedule .
- All the observation/ suggested already improved.
- Effective
- Understanding
- Interesting
- Teachers should give more attention on each student
- Practicing questions

Comments

- Physical class should be conduct as soon as possible
- Practical class should be better..
- Should adaptive with students.
- Should help the students who are downfall.
- Should help with proper lectures and notes for students.
- First of all make the institute friendly oriented. So that everyone can express their issues.
- The institute not fulfilling what they have told during the admission.
- The management is very poor.
- Small events should be done with in the degree program not including all the degrees

Comments

- The official or website based issues should be clarified in a virtual method (its very tuff process to move from one to another for our(eg. Registration processed or solving any problem related quarry. Please fix it .)
- Overall its a good atmosphere for studying here .just some good experience will make the university to the rank 1 .
- If we can have more field activities it will help us.
- Practical illustration
- Shorten the gap between teacher and student
- More effective classes
- There are some network problem in our locality.

Comments

- But in covid pandemic situation online classes is the better option than physical class.
- Avoid "zoom and Google meet" and replace by "impartus"
- There are some network problems in our locality.
- But in covid pandemic situation online classes is the better option than physical class.
- Avoid "zoom and Google meet" and replace by "impartus"
- Communication between teacher and student was good,
- Encourage the student to learn.
- An increased focus on student

Comments

- The establishment of a professional
- Learning community
- Kindly gives more practical classes
- To enhance each and every student.
- If practical will done, then it will be more efficient.
- If teachers were give more importance in students Giddiness then it will be quite good.
- Enthusiasm for the teaching profession
- An increased focus on student achievement
- The establishment of a professional learning community.
- 1 An increased focus on student

Comments

- The establishment of a professional
- Learning community
- ALL IS GOOD IN OUR INSTITUTION
- Everything Is Great In This Institution.
- To encourage the students for more knowledge except the course studies
- And for more extracurricular activities
- After coming to campus no online classes should be done.
- No hidden charges should be brutally imposed on students, eg. Boot camps, subject registration.
- Equal Placement offers should come for all branches.

Comments

- All teacher are providing quality teaching wich is highly appreciated and which will help us in our feature.
- Coordination with students
- Try to improve student confidence
- Overall very good teaching
- Give an extra class to those students who are weak in studies for there better performance and please drop the price of eod
- Give good concept
- Communicate with all student regarding assignment
- Frequently interacting with students, more practical knowledge to students, motivating students

Comments

- The teaching style and language is understandable
- Start offline classes as soon as possible
- To encourage the students to participate in all events and motivate students to study well
- Teachers talk with every student
- Give suggestion for better study
- Give motivation
- I privilege of the campus is good but, need more faculties in some departments ;

Comments

- More Attention, extra classes for weak student, help weak student
- If lectures understand students well then it's easy to learning experience.
- Due to pandemic cause students don't understand their subjects not at all because of poor network problems.
- During subjects registration time students also suffers a lot mostly at all
- They don't reply at all
- So, please kindly requesting to change these type of learning process.
- And also students suffers from these online classes.

Comments

- Give some practical knowledge and equipment and some examples....
- Improve internet
- Improve smart class
- Increase faculty
- For my point of view our teaching and learning process is excellent.
- Get a better internet connection for online only that much
- If possible start offline classes and provide us study material. it is a problem to always study via internet.
- Sir and mam always try to clear students doubt

Comments

- Always try to encourage for their skill
- Give some extra time to understand the theory.
- Take recap after complete the topics.
- Give partially time to all students for discussion and ask question.
- Student Teacher communication must be fixed, because whenever students face any issue regarding Academics or any other problems they usually reach to their respective faculties first, so the time gap must be shortened between the problem conveyed by the student to the mentor & the solution given to the student by the mentor.
- Making small groups of students and assigning a teacher to them so as they the teaching faculty could have a proper view to the group and could get the weaknesses and strengths of the students .

Comments

- Providing the students with such outings and facilities that they could have a proper experience of field job , team work , adaptability, communicating, analyzing...etc
- Building up a character in student ,giving them real life experiences and internship .
- In my view point ,may b these all things are more effective for grooming student for future rather than preferring old school classrooms teaching . As the students will have real life experiences they will understand things properly so they can have a better learning experience !
- In online platform we face some physical problems because of too many hour classes...So if in between some rest time that will very helpful for us..

Comments

- 2.If we Get our recorded classes from MIS cell in our college mail ID..its very helpful for us ...
- Less assignments and more time to self study
- Offline classes as soon as possible
- More class in less time
- Should communicate to each student regularly
- Should have doubt cleaning classes
- Always be students friendly
- Everything is good. But expecting a little more practical knowledge.
- Focus on student
- Comminuted with each other.

Comments

- Classes don't go according to the routine...this should be made clear with the routine....and exam date is been given just a day before the commencement of the exam.
- Teachers and Students must be good communication skills.
- They Should teach in more attractive manner.
- Students must be more active.
- All teachers are very good always motivated our students with good knowledge.
- Begin offline classes. Online classes are not imparting any sort of practical knowledge as a result of which the learning process is incomplete.

Comments

- 1st change Indian Education System then only its improve the overall teaching style
- Describe real life examples during class
- Communication, explanation, examples
- Use better graphics and visual media to engage students well .
- Try to reach every student and ask for their doubts .
- Make teaching a two way interaction.
- Everything is good according to my knowledge
- Teachers should follow the timetable given by institution during online classes.

Comments

- Most of the teachers are interactive. But, some teachers are less interactive.
- Other than this overall teaching learning process is satisfactory.
- A variety of interaction patterns during the lesson not too much teacher to student interaction.
- Good elicitation techniques.
- Activities to encourage students to move around the classroom
- 1st of all are teacher very carefully or every student 2th machine learning is very interesting and very good 3th teacher are every time helpful to any subject or any problem.

Comments

- The digital board is not working properly.
- Practical's as compared to theory should be Seriously done.
- Field trips for experimental learning should be Seriously done.
- All good, no any complain, and overall teaching is very good by the teacher.
- Give coaching to students for GATE exam and state exam like OUAT.
- Prepare students for competitive exams.
- Give or talk with students for right future decisions.
- Use improve equipment for practice.

Comments

- Encouragement ,guide ,and helping student.
- Three observations or suggestions to improve overall teaching and learning experience in institution are 1-Use better graphics and visual media to engage students well.2-Try to reach every student and ask for their doubts.3-Make teaching a two way interaction
- Every teachers must use ICT tools.
- Every teachers must encourage every student.
- Every teachers must communicate with every students.
- Use better graphics and visual media to engaged student well to make teaching a two way interaction.Try to reach every students

Comments

- Make teaching a two way interaction & Try to reach every students and ask for their doubt's.
- The digital board is not working properly
- Practical's are compared to theory should be seriously done.
- Field trip for experimental learning should be serious done.
- Air conditioner classrooms
- More use of ICT tools
- Examination procedure must be improved

Comments

- it's better to do offline classes.
- Classes should be done in offline for a good learning.
- Questions should be asked by the teachers about what we studied..
- Let's practice for online examination
- Please avoid more practical knowledge and technology.
- Some teachers just reading the ppt , not explaining.
- Some teacher are not following the proper timetable.
- More opportunities to communicate with
- Extra curricular activities should be promoted

Comments

- For online classes Impartus should be brought back.
- Good interaction between the students, develop image quality of the slides, revision
- The teaching is very good.
- No more suggestions because everything is good.
- First of all, the university claims to be a skilled university, but never allows us to work with high end machines, neither provides us super computers for design labs. It also states that the university follows choice based credit system, but forcibly makes us to register irrelevant subjects.

Comments

- I appreciate the efforts made by my teachers. But as always the management is the worst, the people who are making rules here are not at all worried for us, rather they are only exploring ways to extract money. Every time we are giving feedback, but it is good for nothing. I wish this time the management will improve.
- It will be much better if teachers can teach more practically other than going theoretically.
- It will be helpful if teachers suggest the ways which are helpful for us to get jobs.
- Training should be provided to make us job ready.

Comments

- The institution should promote student internship outside the campus.
- Aptitude classes and personal development classes must be taken by the institution.
- Every thing n facility's are good, so in my point of view it's nice
- Everything is running best in our University.
- The online platform which is conducted by our institution is the best platform but the facilities issues are here. Please try to solve this.
- Interaction should be done b/w teachers and students

Comments

- At the moment of online examination many times i faced server issues from the given website Or applications and I multiple times mailed this issues to the exam cell and the exam coordinators as well but not got a single reply from them.Please try to fix this issues.
- Please fix the network issues of online classes.
- Server is not working properly in exam time.
- Network failure classes time so start the class physically.
- Going for mine tour
- Be attentive

Comments

- Classes should be timely
- All students must attend the classes
- Teacher should give valuable notes to the students
- Physical class
- Notes for every subject
- Must be practical.
- Understandable
- Conversation

Comments

- Write important question answer regularly
- Less the time period.
- By opening physical classrooms,
- By giving us a chance to apply our knowledge in the real world through internships
- Everything is good according to my knowledge
- Increase the concept of best teachers like skill
- Classes made it offline peacefully.

Comments

- Be practical and theoretical knowledge filled
- Be on point to the class and make class as fun rather than too emotional attached.
- Give some tour or industrial visit to make students realistic.
- Before the time to alert students , as per when fees to deposit then that time they are alerting otherwise not
- All good, no suggestions is required
- All good no suggestions are required.
- Encourage active and practical learning. Provide for meaning full teacher and student interaction.

Comments

- Use better graphics and visual
- Media to engage students well. ...
- Try to reach every student and ask
- Make teaching a two way
- Interaction.
- Use better graphics and visual media to engage students well.
- Try to reach every student and ask for their doubts.
- Make teaching a two way interaction.

Comments

- Offline Or physical classes is more beneficial .
- Regular Counseling of Students
- Experienced and Knowledgeable faculties should be appointed
- Cores and Basics should be cleared thoroughly without indulging to advance courses and subjects
- The lab facilities must be improved.
- Teachers should focus more on practical exposure.
- Good lab instruments should be provided so that students can gain good knowledge.

Comments

- Communicate to everyone, 2-font does fast teaching in any subject
- By knowing the abilities of students they can try to help them achieve their goals
- All teachers should speak in English rather than odia
- Also should support the students for extra activities
- Encouragement for placement .
- Can be made effective by giving daily life examples with the same in our learning's.

Comments

- Digital teaching, field work and best voice recognition that student can understand.
- Digital teaching, field work and best voice recognition that student can understand.
- Weekly viva is required for theory and practical ..
- Some basic knowledge is required apart from spoon feed .
- Competitive tasks needed to overcome good results practically.
- Teachers must understand us without judging .
- Teachers should also give attention to the mistake they do and do not accept it.

Comments

- Teachers should give appropriate time to complete any type of work which they assign us.
- Final year fees must not be taken completely.
- Genetics lab must focus on practical experience, which is near to zero currently.
- Online classes must have atleast some gap between them
- We are facing problems on lab
- Let the students decide the timing of classes . By which we can save time .

-

Comments

- Authorities should know the teaching quality of a teacher . A student can't replace the teacher .
- Every thing is just fine no such changes required
- Use better graphics and visual media to engage students well. ...
- Try to reach every student and ask for their doubts. ...
- Make teaching a two way interaction.
- Clear our all doubt with more examples .
- Provide some extra activities to us.
- Sometimes Focus on Research Part if Possible.

Comments

- There should be more time for laboratory work.
- Before the semester held the teachers should revise the whole syllabus with students.
- They should Always encourage the students to do their best.
- Help the students how suffers weak in subjects and help him to overcome the subject..
- Subjects should be treated more practically rather than theoretically.
- Motivation should be increased
- All facilities in our campus. No have any suggestion

Comments

- Try to reach every student and ask their doubts
- Encourage students to participate in extracurricular activities.
- We should emphasize on practical learning.
- I am not competent or qualified enough to suggest my institution or teacher but would like to say only one thing that may be interacting individually with me could help me in understanding the reality of my situation and so with every other student.
- In every class projector should be use to teach students.

Comments

- Better teaching platform than Google meet, zoom etc.
- Stable network connection from teachers end.
- More online exams so that we can be more familiarised with the exam process.
- Provide library books for learning.
- Programmes should be more practical oriented.
- All things are best, but i am telling this all things are ok.
- Study tour.

Comments

- Industrial based project.
- Do Industry oriented training program
- Study Tour require 2-Digital Learning 3-Good Class room
- University to be opened
- During this closing period 1 get together needs to interact with teachers and classmates
- Syllabus should be elaborate properly
- Individual student care would be good

Comments

- Marking should be given fair enough
- Teaching should be in an innovative way
- Give students their proper guidance in the near future
- Resume physical classes as early as possible.
- More field visits should be done.
- Skill courses should be encouraged more.
- Best experience in my college
- Open physical classes as soon as possible.

Comments

- At the home no properly study's
- Teacher have to encourage participate in extracurricular activities
- Teachers have to identify our weaknesses and help over come them
- Communication skills should be better.
- Providing materials at correct times.
- Information should be passed to the students before the due date.
- Communication skills should be better.
- Use high quality of visibilities.

Comments

- Providing materials at the correct time.
- Important information should be given before the due date.
- From my point of view, In this pandemic situation online regular class is a correct option to active students.
- By online classes we can improve our communication skills as well as technical knowledge.
- Teacher focus any students
- I am satisfied to your teaching way
- Some practical work need to be done to improve the understanding of the students.

Comments

- Encourage, identify weakness student,
- Encourage, identify weakness student,
- Provide company level experience and provide student to do in particular interest in Domain wise.
- Better interaction with student and teacher after completing course
- Easy and concise notes should be provided in some subjects for better understanding. There is lack of proper mentor facility .
- Everything is awesome to say, but now only thing that I want is - College to open for more physical interaction and understanding.

Comments

- Practical base well prepared class is very essential for us , very dependable and effort teachers required.
- All are right .no need to change anything.
- Best teaching
- Introduction
- Best professional
- Best teaching
- The establishment of a professional commutative learning

Comments

- Enthusiasm for teaching profession
- Teacher focus any students
- Class timeline
- 3 language
- THEORY EDUCATION SHOULD BE LESS AND MORE PRACTICAL SHOULD BE CONDUCTED.AND ASSIGNMENT SHOULD NOT BE THERE ANYMORE
- Check network connection while teaching.
