

6.2.1 The institutional Strategic plan is effectively deployed.

Response:

1. Comprehensive Skill-Integrated Education

- Centurion University, as a Skill University, offers skill-integrated higher education aligned with NSQF competency levels.
- The approach blends hands-on knowledge, practice-based pedagogy, and experiential learning in an inclusive environment, particularly focusing on rural and remote areas.

2. Integration of Technical Vocational Education and Skill Development

- The university has successfully institutionalized a model that combines Technical Vocational Education & Training (TVET) qualifications with skill development.

3. Live Production Environment

- CUTM recreates live production environments on campus, where students design, simulate, test, and manufacture prototypes, fostering commercialization skills.

4. Blended Learning Modules

- The university's courses integrate traditional, applied, and action learning to develop competencies across numeracy, literacy, technical, life, professional, and entrepreneurial skills.
- This prepares students for diverse entry-level roles and career advancement.

5. Global Recognition

- CUTM's unique model has gained global recognition:
 - Cited in the UN General Assembly debate on the Right to Education
 - Acknowledged in the World Bank Report on Higher Education Quality
 - Highlighted in the British Council's Global Report on Social Enterprise and Higher Education
 - Featured in the NITI Aayog Best Practices Report
 - Published as a UNESCO case study

This strategic approach ensures effective deployment of skill-based education and global recognition.
