

# Avalanche Milan

## Event Report

### INTRODUCTION

The *Avalanche Milan* meetup was successfully held at Centurion University of Technology and Management (CUTM), Bhubaneswar, on 17th February 2025. The event was hosted by Avalanche Team1 members. The event focused on educating attendees about the Avalanche blockchain and its ecosystem.

### ACTIVITIES

- **Fastest Core Wallet Installation:** The first five attendees to install the Core Wallet received a \$3 airdrop.
- **Crossword Puzzle Game:** The top five participants who solved the puzzle won a **\$3 airdrop** each.
- **Group Photo & Social Media Contest:** Attendees clicked a group picture and tagged Team1 members and AVAX DAO, with the top five most creative posts receiving special rewards.
- **Panel Discussion:** A discussion on "AI Agents and NFTs" was held, featuring:
  - **Ankit Das** (CTO, FusionWave) as the guest speaker.
  - **Abhi Mitra** (Co-founder and Lead Tech Advocate, C2C).
  - **Om Kumar Pandit** (B.Tech Final Year Student).
  - **Promise Wilfred** as the moderator.

### OUTCOME

- **Successful Event:** The Avalanche Milan meetup was a great success, fostering discussions, hands-on learning, and networking among blockchain enthusiasts and developers.
- **Airdrop Rewards:** 20 active participants received airdrop rewards for their engagement in various activities.
- **Knowledge & Learning:** Attendees, whether experienced developers or newcomers to Web3, gained valuable insights into blockchain technology and the Avalanche ecosystem.

### STUDENT FEEDBACK

- “The event was an eye-opener! As someone new to Web3, I learned a lot about Avalanche and its real-world applications. The hands-on activities made it even more engaging.”
- “I really enjoyed the panel discussion on AI Agents and NFTs. It was insightful to hear from industry experts and understand how these technologies are shaping the future.”
- “The crossword puzzle and Core Wallet installation tasks were fun and informative. It was great to learn about Avalanche in an interactive way.”
- “This event gave me a deeper understanding of decentralized identity and gaming applications on Avalanche. Looking forward to more such meetups!”

## **ORGANIZING TEAM**

### CORE TEAM:

- Abhi Mitra
- Promise Wilfred
- Deepesh Singh Rathore
- Shruti Mishra
- Shreya Pramanick

## **GUEST**

Ankit Das – CTO at FusionwaveAI

## **FUTURE PLANS**

- Regular Meetups: Hosting more interactive sessions on Avalanche for all skill levels.

- **Workshops & Training:** Conducting hands-on sessions on smart contracts, DeFi, and dApp development.
- **Hackathons & Competitions:** Organizing hackathons and challenges to drive blockchain innovation.
- **Community Growth:** Expanding the local Avalanche community through networking and collaboration.
- **Career Opportunities:** Providing mentorship, internships, and job connections in the Avalanche ecosystem.

## **IN ESSENCE**

The event successfully introduced attendees to the Avalanche ecosystem, fostering learning, engagement, and hands-on experience. With plans for regular meetups, technical workshops, hackathons, and community-building initiatives, the goal is to further expand blockchain awareness and career opportunities for enthusiasts and developers.
