

SOLANA WORKSHOP BY SOLANA FOUNDATION

Event Report

Event Details

- **Event Name:** Solana Developer Workshop, Bhubaneswar
- **Organizer:** Solana Foundation
- **Host:** Ayush Singh Chauhan, Developer Relations, Solana Foundation
- **Date:** 22/03/2025
- **Duration:** 1:30 to 7:30 pm
- **Location:** Hall No: 6 , Aryabhatta Building , Centurion University, BBSR
- **Attendees:** 68

Key Highlights

Introduction to Superteam India

The event started with a **documentary on Superteam India**, showcasing their journey, community, and impact in the Web3 space. This session helped attendees understand the mission and contributions of Superteam India in the Solana ecosystem.

Solana Programming Workshop

Ayush, the event host, led an insightful session on **Solana programming**, covering fundamental concepts such as:

- Basics of Solana blockchain
- Introduction to **Rust** and Anchor framework
- Writing and deploying smart contracts on Solana
- Hands-on coding exercises and real-world examples

Interactive Q&A and Networking

Attendees actively engaged in a Q&A session with Ayush, discussing Solana's architecture, on-chain programs, and career opportunities in the Solana ecosystem. This was followed by a networking session where participants connected with fellow builders and enthusiasts.

Projects & Learnings

The event was not just theoretical but also practical. Some of the key takeaways and projects built during the workshop included:

- **Simple Solana Token Program** – A basic SPL token creation
- **NFT Minting on Solana** – Deploying an NFT collection using Metaplex
- **Solana Voting DApp** – A decentralized voting system on Solana blockchain

Event Impact

The workshop provided attendees with hands-on experience in **Solana development**, making it an excellent starting point for developers interested in Web3 and blockchain technology. The **60+ attendees** gained valuable skills, and many expressed interest in continuing their Solana development journey.

Event Photographs

Conclusion

The Solana Workshop by **Superteam India** , **SOLANA FOUNDATION**, hosted by **Ayush**, was an insightful session that introduced developers to the Solana ecosystem. The **documentary, hands-on coding sessions, and networking opportunities** made it an enriching experience for all participants.

Special thanks to Superteam India and Ayush for organizing this workshop and empowering the community with Web3 knowledge.
